Real Essays with Readings is the essay-level book in Susan Anker's highly successful series of writing texts that motivate students with their message that writing is an essential skill in college and in real life — and that this skill is achievable. Anker's advice, examples, and assignments show the relevance of writing to all aspects of students' lives, and profiles of former students prove that success is attainable. Like all the books in the Anker series, Real Essays presents writing in logical, manageable increments: step-by-step writing guides and a focus on the "four basics" of each mode of writing keep students from becoming overwhelmed. Real Essays maintains its emphasis on what really matters by focusing on the four most serious errors (fragments, run-ons, subject-verb agreement problems, and verb form problems). Real Essays gives students what they need to succeed in college and become stronger academic writers.

This updated edition in paperback of the bestselling and critically acclaimed book on the rise of Google and the "search industry" contains a major new Afterword from John Battelle. The rise of Google is one of the most amazing stories of our time. Google's enormous impact straddles the worlds of technology, marketing, finance, media, culture, dating, job hunting, and just about every other sphere of human interest. And no one is better qualified to explain this entire phenomenon than John Battelle, the acclaimed Silicon Valley journalist who co-founded "Wired" and founded "The Industry Standard". Much more than just a business book, this explains how the search industry is changing the way we live in profound and unpredictable ways. "The Search" contains exclusive interviews with some of the biggest names at the top companies including Google founders Larry Page and Sergey Brin. Google is the No. 1 search engine and is now a recognised word in its own right - they receive over 200 million search requests every day and it is estimated that over 80 per cent of webusers turn to Google first.

This comprehensive, interdisciplinary handbook reviews the latest methods and technologies used in automated essay evaluation (AEE) methods and technologies. Highlights include the latest in the evaluation of performance-based writing assessments and recent advances in the teaching of writing, language testing, cognitive psychology, and computational linguistics. This greatly expanded follow-up to Automated Essay Scoring reflects the numerous advances that have taken place in the field since 2003 including automated essay scoring and diagnostic feedback. Each chapter features a common structure including an introduction and a conclusion. Ideas for diagnostic and evaluative feedback are sprinkled throughout the book. Highlights of the book's coverage include: The latest research on automated essay evaluation. Descriptions of the major scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ Engine, c-rater™, and LightSIDE. Applications of the uses of the technology including a large scale system used in West Virginia. A systematic framework for evaluating research and technological results. Descriptions of AEE methods that can be replicated for languages other than English as seen in the example from China. Chapters from key researchers in the field. The book opens with an introduction to AEEs and a review of the "best practices" of teaching writing along with tips on the use of automated analysis in the classroom. Next the book highlights the capabilities and applications of several scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ engine, c-rater™, and LightSIDE. Here readers will find an actual application of the use of an AEE in West Virginia, psychometric issues related to AEEs such as validity, reliability, and scaling, and the use of automated scoring to detect reader drift, grammatical errors, discourse coherence quality, and the impact of human rating on AEEs. A review of the cognitive foundations underlying methods used in AEE is also provided. The book concludes with a comparison of the various AEE systems and speculation about the future of the field in light of current educational policy. Ideal for educators, professionals, curriculum specialists, and administrators responsible for developing writing programs or distance learning curricula, those who teach using AEE technologies, policy makers, and researchers in education, writing, psychometrics, cognitive psychology, and computational linguistics, this book also serves as a reference for graduate courses on automated essay evaluation taught in education, computer science, language, linguistics, and cognitive psychology.

The Essential Guide to Writing History Essays is a step-by-step guide to the typical assignments of any undergraduate or master's-level history program in North America. Effective writing is a process of discovery, achieved through the continual act of making choices--what to include or exclude, how to order elements, and which style to choose--each according to the author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple, short essays to completing a full research thesis, it also teaches students why and how an essay is effective, empowering them to approach new writing challenges with the freedom to find their own voice.
