Prin "Exerciții de echilibru", am descoperit un altfel de Tudor. Știam că este actor, interpret, artist și faptul că publică des pe propriul blog, gânduri și idei din locuri prin care a hoinărit sau prezentând sentimente care l-au marcat. "Exerciții de echilibru" nu este un roman propriu-zis, ci o culegere de postări de blog, publicate inițial pe blogul său în intervalul 2007-2012.

Remember when flying was glamorous and sexy, even fun? When airline food was gourmet, everyone dressed up for a flight, and stewardesses catered to our every need—at least in our imaginations? This classic memoir by two audaciously outspoken young ladies, who lived and loved the free-spirited stewardess life, jets you back to those golden days of air travel—from the captain who's as subtle as a 747 when he's on the make to the passenger who mistakes the overhead luggage rack for an upper berth; from the names of celebrities who were a pleasure to serve (and some surprising notables on the "bad guy" list) to the origins of some naughty stereotypes—Spaniards are the best lovers, actors the most foul-mouthed. This huge bestseller, a First Class jet-age journal, offers a hilarious gold mine of outrageous anecdotes from the high-flying and amorous lives of those busty, lusty, adventuresome young women of the swinging '60s known as "stews."

A reformer who was always colorful, provocative, and controversial, Dan Walker became a political maverick, taking on Mayor Richard J. Daley's vaunted Chicago machine and the powerful incumbent Richard Ogilvie to become the governor of Illinois. The Maverick and the Machine tells the dramatic story of Walker's rise from dirt-poor beginnings to the pinnacle of power in Illinois and his conviction on charges of bank fraud that landed him in federal prison. This frank volume also probes the inner sanctum of the governorship and reviews the investigations of Governor Blagojevich's administration and the criminal trial of former governor George Ryan. Best Memoir of 2008, San Diego Book Awards Illinois State Historical Society Certificate of Excellence, 2008

The sketchbook has been the one constant in explorers' kits for centuries of adventure. Often private, they are records of immediate experiences and discoveries, and in their pages we can see what the explorers themselves encountered. This remarkable book showcases 70 such sketchbooks, kept by intrepid men and women as they journeyed perilous and unknown environments—frozen wastelands, high mountains, barren deserts, and dense rainforests—with their senses wide open. Figures such as Charles Darwin and Sir Edmund Hillary are joined here by lesser-known explorers such as Adela Breton, who braved the jungles of Mexico to make a record of Mayan monuments. Here are profiles, expedition details, and the artwork of pioneering explorers and mapmakers, botanists and artists, ecologists and anthropologists, eccentrics and visionaries. Here is the art of discovery.

WHERE SECRETS SMOLDER . . . Calm. Cool. Collected. Gisele Whitby has perfected the art of illusion—her survival, after all, has depended upon it. Years ago, to escape an abusive husband, Gisele "disappeared." Now she must risk revealing her new identity to save another innocent girl from the same fate. But she needs a daring man for her scheme, and the rogue in question shows a remarkable talent . . . for shattering Gisele's carefully constructed facade and igniting her deepest desires. . . . PASSION IGNITES This isn't the first time Jamie Montcrief has awakened naked and confused from a night of drinking. It is, however, the first time a stunningly beautiful woman offers him payment afterward. Gisele has a business proposition for him, a mission involving cunning thievery and a brazen rescue. How can he say no to a plot this dangerous . . . and a woman this delectable?

Structural analysis, or the 'theory of structures', is an important subject for civil engineering students who are required to analyse and design structures. It is a vast field and is largely taught at the undergraduate level. A few topics like matrix method and plastic analysis are also taught at the postgraduate level and in Structural Engineering electives. The entire course has been covered in two volumes: Structural Analysis-I and II. Structural Analysis-II deals in depth with the analysis of indeterminate structures, and also special topics like curved beams and unsymmetrical bending. It provides an introduction to advanced methods of analysis, namely, matrix method and plastic analysis. SALIENT FEATURES ☐ Systematic explanation of concepts and underlying theory in each chapter ☐ Numerous solved problems presented methodically ☐ University examination questions solved in many chapters ☐ A set of exercises to test the student's ability in solving them correctly NEW IN THE FOURTH EDITION ☐ Thoroughly reworked computations ☐ Objective type questions and review questions ☐ A revamped summary for each chapter ☐ Redrawing of some diagrams

Diane seems to have the perfect life. She is a wife, mother, and the owner of Happy People Read and Drink Coffee, a cozy literary café in Paris. But when she suddenly loses her husband and daughter in a car accident, the world as she knows it disappears. One year later, Diane moves to a small town on the Irish coast, determined to heal by rebuilding her life alone—until she meets Edward, a handsome and moody photographer, and falls into a surprising and tumultuous romance. But will it last when Diane leaves Ireland for good? At once heartbreaking and uplifting, Diane's story is deeply felt, reminding us that love remembered is love enduring. "A heartbreaking story of love and loss that will twist readers up in knots...essential." —Library Journal
