Past exam papers are a fantastic way to prepare for an exam as you can practise the questions in your own time. You can download each of the exam board's papers by clicking the links below.

This book will provide you with crystal clear and accurate examples of 'A' star grade AQA AS and A level Psychology paper examinations from the new syllabus from 2016 and enables students to achieve the same grade in their upcoming examinations. I teach both GCSE and A level Psychology and I am a qualified and experienced Psychology teacher and tutor of over 16 years standing. I teach, write and provide independent tuition in central and West London. The resources in this book WILL help you get an A or A star in your AQA AS and A level Psychology examinations, as they have done and will continue to do so for my students. Best wishes, Josep

The Extending Knowledge and Skills series is a fresh approach to A Level Psychology, designed for greater demands of the new AQA specification and assessment, and especially written to stretch and challenge students aiming for higher grades. Dealing with the AQA's Paper 3: Forensic Psychology, this book is deliberately laid out with the assessment objectives in mind, from A01: Knowledge and understanding material, followed by A02: Application material, to A03: Evaluation and analysis material. Providing the most in-depth, accessible coverage available of individual topics in Paper 3, the text is packed full of pedagogical features, including: Question Time features to ensure that the reader is consistently challenged throughout the book. New research sections clearly distinguished within each chapter to ensure readers have access to the most cutting-edge material. A clear focus on

the assessment objectives for the Paper topic to ensure readers know when and where to apply knowledge. The use of example answers with examiner style comments to provide greater insight into how to/how not to answer exam questions. An engaging, relevant and challenging text which broadens student understanding beyond that of the average textbook, this is the essential companion for any student taking the AQA A Level Paper 3 in Psychology.

Covering the core content of the AQA Biology 2006 onwards (single award) specification, this revision guide reflects the 'How science works' element of the course.

A new series of bespoke, full-coverage resources developed for the 2015 A Level English qualifications. Endorsed for the AQA A/AS Level English Language specifications for first teaching from 2015, this print Student Book is suitable for all abilities, providing stretch opportunities for the more able and additional scaffolding for those who need it. Helping bridge the gap between GCSE and A Level, the unique three-part structure provides essential knowledge and allows students to develop their skills through a deeper study of key topics, whilst encouraging independent learning. An enhanced digital version and free Teacher's Resource are also available.

Aims to provide a match for the AQA Statistics specification. This book is suitable for both Foundation and Higher tier candidates. It provides: practice at the statistical techniques needed for the exam; and integrated project ideas and a separate coursework unit that aims to help students develop their skills in this important area.

Includes material that covers the AQA English literature and English language specification B syllabuses. Offering exam and coursework tips, this title focuses on assessment objectives to help students learn how to achieve maximum results.

Written to help foundation students reach their full potential in the AQA/A GCSE English exam, this text is based on the "GCSE English for AQA/A" text but breaks the skills down to teach them more gradually in simple steps. Each unit has a "test yourself" section to assess progress.

This book will provide you with crystal clear and accurate, full mark examples of 6 'A' star grade AQA A Level Year 2 Psychology Papers 1, 2 and 3 (for all 10 sections that are possible to choose from) examinations from the current syllabus that I have created with my Quality Control System(tm) and moderated. This enables students to achieve the same grade in their upcoming examinations. The Quality Control System(tm) includes a summary of the Examination Papers, how to approach the Assessment Objectives in each examination and the correct Timings (minute/s per mark) and Word Count (per mark) for each question. This will ensure success in your Psychology examinations as it has done for my students. I teach both GCSEs and A levels and I am a qualified and experienced teacher and tutor of over 18 years standing. I teach, write and provide independent tuition in central and west London. I graduated from the Universities of Liverpool and Leeds and I obtained first class honours in my teacher training. I also write academic resources for the Times Educational Supplement. One of the most common questions my students have is: How do I get an A star in my exam? I have sought out model answers over the years which concentrate on how much time you should spend on each question, how the Assessment Objectives are met, and how many words need to be produced for each question. Failing to find this or even a concise layout of what is in each paper for AQA Psychology; I set about creating the answer to this real need. This book is the answer to this question and answers a real need that remains sadly unmet for the vast majority of students as you need to see it to be it (in this case - an A Star student). With coursework a thing of the past, your exams have never been more important with your entire grade decided by your exams and therefore your future place at university; which is the springboard to your future. Sadly, in addition to this, there has been so much disturbance and missed teaching time over the last couple of years too but this book will give you a head start. As a tutor I have often had extreme time pressures to give students the best chance in their exams with very limited teaching time available. This collection of exam answers is the best answer to these unavoidable problems. This book is packed with in-depth exemplar answers that demonstrate what A star exam answers look like on the full Psychology course. With a distinct focus on AQA's Assessment Objectives and the AQA Mark Scheme criteria these answers clarify the exam requirements and demonstrate how to construct full mark answers. The exam answers in this book push you towards your highest level and help you to remember what you have learnt in a practical and effective way; thus, demonstrating how to get every mark from the examiners! Through clear examples which demystify how to write the perfect answers, you can achieve A's and A Stars in the 2022 and 2023 Psychology A level examinations! My tuition students have been fortunate enough to attain places to study at Oxford, Cambridge and Imperial College, London and other Russell Group Universities. The students have done very well in their examinations and one Psychology student even obtained full UMS marks in their Psychology examinations. I hope and know that my Psychology books can enable you to take the next step on your academic journey. The resources and information in this book WILL help you get an A or A star in your AQA A Level Year 2 Psychology examinations, as they have done, and will continue to do so, for my students. Very best wishes for your examinations! Joseph This book is not endorsed by or affiliated with AQA. I am simply a teacher/tutor whose students have received A's and A stars in AQA Psychology AS and A level examinations for many years following the methods and model answers outlined in this book.
