video game not included.

This in-world book by Vault-Tec highlights seven key attributes of vault dwellers in Bethesda Game Studio's hit Fallout® video game franchise. Following total nuclear annihilation, the caring Vault-Tec staff have prepared an educational manual to help vault dwellers like you understand what makes you S.P.E.C.I.A.L. This replica of the board book every Lone Wanderer or Sole Survivor receives in Fallout® 3 and Fallout® 4 will help readers determine their best traits! After all, everyone is special, even you. Learn about the seven defining attributes of Strength, Perception, Endurance, Charisma, Intelligence, Agility, and Luck. If you're lucky, one of these attributes may be what stands between you and a horribly painful fate. So study carefully and discover what makes you S.P.E.C.I.A.L.!

- Exclusive maps detailing the New Vegas world!
- Complete coverage of every main mission adventure as well as all side quests and encounters.
- Every collectible catalogued and located so you won't miss any.
- Huge pull out poster map of the huge New Vegas landscape with points of interest, main sights, and major landmarks labeled.
- Hardcover collector's edition!

The year was 1997 and Fallout: A Post Nuclear Role Playing Game had just been released by Interplay. This book looks back at the entire Fallout saga, tells the story of the series' birth, retraces its history and deciphers its mechanics. The perfect book to discover and understand the origins of Fallout, with the saga's genesis and the decryption of each of his episodes ! EXTRACT The intro music and the end credits were the final main components of this hybrid post-apocalyptic/50s ambiance. Initially, Brian Fargo wanted to signal Fallout's inspiration with Warriors of the Wasteland, by Frankie Goes to Hollywood, but when he heard The Ink Spots, he changed his mind and loved the result. The first choice was I Don't Want To Set The World On Fire by this group of crooners from the 1930s/40s, but unfortunately the high cost made it impossible to acquire the rights. But while browsing an extensive list of tracks from the era, the team found that Maybe, by the same group, had almost the same sound-with the added bonus of being cheap! The lyrics are about a break-up, from the point of view of the person being left behind: "Maybe you'll think of me when you are all alone/ Then maybe you'll ask me to come back again". Leonard Boyarsky notes that, "It worked with the intro [and the ending]", referring to the ending with the betrayal and lonely exile of Fallout's hero. "It felt like it was this genius plan we had [...] but it was only later that we decided to kick [the player] out of the Vault. I feel like this is a metaphor for the whole game: it looks like we had a better picture in mind than we did, it just came out of the things we were doing".

"The book is an excellent addition to the scholarly literature on subnational movements, both past and present, offering a range of

insights to policymakers across the globe."—Ayesha Jalal, author of *The Struggle for Pakistan* "With judicious use of empirical evidence and rich case studies, Ahsan I. Butt makes a compelling case that states' responses to secessionist movements turn to a considerable degree on their external security environments."—S. Paul Kapur, author of *Jihad as Grand Strategy In Secession and Security*, Ahsan I. Butt argues that states, rather than separatists, determine whether a secessionist struggle will be peaceful, violent, or genocidal. He investigates the strategies, ranging from negotiated concessions to large-scale repression, adopted by states in response to separatist movements. Variations in the external security environment, Butt argues, influenced the leaders of the Ottoman Empire to use peaceful concessions against Armenians in 1908 but escalated to genocide against the same community in 1915; caused Israel to reject a Palestinian state in the 1990s; and shaped peaceful splits in Czechoslovakia in 1993 and the Norway-Sweden union in 1905. Using more than one hundred interviews and extensive archival data, Butt focuses on two main cases—Pakistani reactions to Bengali and Baloch demands for independence in the 1970s and India's responses to secessionist movements in Kashmir, Punjab, and Assam in the 1980s and 1990s. Butt's deep historical approach to his subject will appeal to policymakers and observers interested in the last five decades of geopolitics in South Asia, the contemporary Israeli-Palestinian conflict, and ethno-national conflict, separatism, and nationalism more generally.

Provides a guide to the video games, including profiles of all 450 characters.

ORIGINAL FALLOUT 4 PRINT GUIDE + EXPANDED G.O.T.Y. eGUIDE! Print Guide: Full coverage of the original Fallout 4 content. G.O.T.Y. DLC Expansions: The free eGuide provides interactive maps plus coverage of each of the DLC expansions--Automatron, Wasteland Workshop, Far Harbor, Contraptions Workshop, Vault-Tec Workshop, and Nuka-World! NAVIGATING THE WASTELAND: If you do choose to go aboveground, we have provided an atlas of the surrounding area, with as much detail and information as possible, to satisfy your curiosity and dissuade you from ever venturing outside. EQUIPMENT AND SURVIVAL GEAR: In the unfortunate event that you actually decide to leave the Vault, this manual provides schematics and data for the types of weaponry you may be inclined to use while fighting for your life. Again, we urge you to reconsider going outside. CRAFTING AND RESOURCES: Making good use of your surroundings is essential for survival, should you make the poor decision to venture outside Vault 111. But, just in case, this guide contains schematics and data vital for creating and repairing useful weapons and essential technology. TIPS FOR DANGEROUS ENCOUNTERS: Nothing should deter you from leaving the safety of the Vault like the threat of good, old-fashioned danger. Be sure to study the data that our scientists have compiled about the radiated terrors that you might find outside the comforts of Vault 111. You have been warned! Free Mobile-Friendly eGuide: Includes a code to access the eGuide, a web-

access version of the complete guide optimized for a second-screen experience.

Chronicles the best and the worst of Apple Computer's remarkable story.

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

An exploration of America's self-defeating war on obesity argues against the myth that falsely equates thinness with health and explains why dieting is bad for the health and how the media misinform the public.
