Sophia loves going to the Farmers Market every week. There are lots of things to see and do, and when she meets up with her friends, she loves it even more. In this easy-to-read and beautifully illustrated book, kids learn about how food grows and why buying local is important.

This stylized buffet of fruits and vegetables will naturally appeal to colorists. Thirty-one original designs also feature images of jam jars, herbs, pies, breads, and baskets of other homegrown and handmade goodies typically found at farmers markets. Illustrations are printed on one side of the perforated pages for easy removal and display. Specially designed for experienced colorists, Farmers Market Designs and other Creative Haven® adult coloring books offer an escape to a world of inspiration and artistic fulfillment. Each title is also an effective and fun-filled way to relax and reduce stress.

Learn how to shop better at local farmers markets and how to transform what you buy into a tasty, refreshing, and healthy meal. The time to eat healthy and buy locally has arrived. Buying at farmers markets means getting better, fresh-picked produce that leads to amazing home-cooked meals. Southern Farmers Market Cookbook teaches how to enjoy shopping at local markets and gives instruction on what to look for and what's to be expected to make the experience more fulfilling and fun. More than 75 seasonal recipes show how to take these delicious fresh foods from market to table in mouthwatering ways. Try the crisp Butter Bean and Grape Tomato Bruschetta, the sweet Wild Honey-Glazed Carrots with Mint and Green Onions, the savory Wine-Poached Salmon with Cucumber Crudit  Sauce, and the luscious Warm Wild Cherry Carolina Gold Rice Pudding. While Southern Farmers Market Cookbook features produce grown in South Carolina, North Carolina, Georgia, Alabama, Mississippi, Florida, Kentucky, and Tennessee, many of the same foods can be purchased locally in most areas of the country. This book also includes state-by-state seasonal produce charts and state-by-state farmers market listings.

This groundbreaking and life-changing work based on the latest research effectively demonstrates ☐the profound impact that love, connection, and kindness have on our health☐ (Mark Williamson, PhD, director of Action for Happiness). When Columbia University doctor Kelli Harding began her clinical practice, she never intended to explore the invisible factors behind our health. But then there were the rabbits. In 1978, a seemingly straightforward experiment designed to establish the relationship between high blood cholesterol and heart health in rabbits discovered that kindness☐in the form of a particularly nurturing post-doc who pet and spoke to the lab rabbits as she fed them☐made the difference between a heart attack and a healthy heart. As Dr. Kelli Harding reveals in this eye-opening book, the rabbits were just the beginning of a much larger story. Groundbreaking new research shows that love, friendship, community, and our environment can have a greater impact on our health than anything that happens in the doctor's office. For instance, chronic loneliness can be as unhealthy as smoking a pack of cigarettes a day; napping regularly can decrease one's risk of heart disease; and people with purpose are less likely to get sick. At once paradigm-shifting and empowering, The Rabbit Effect illuminates vital public health research showing kindness in our day-to-day lives can make the ☐world a healthier, happier place. I recommend this book highly for anyone who wants to live more healthfully☐ (Christy Turlington Burns, and CEO of Every Mother Counts).

This two-volume set constitutes the refereed post-conference proceedings of the 12th International Conference on Simulation Tools and Techniques, SIMUTools 2020, held in Guiyang, China, in August 2020. Due to COVID-19 pandemic the conference was held virtually. The 125 revised full papers were carefully selected from 354 submissions. The papers focus on simulation methods, simulation techniques, simulation software, simulation performance, modeling formalisms, simulation verification and widely used frameworks.
