Conversations About Group Concept Mapping: Applications, Examples, and Enhancements takes a concise, practice-based approach to group concept mapping. After defining the method, demonstrating how to design a project, and providing guidelines to analyze the results, this book then dives into real research exemplars. Conversations with the researchers are based on in depth interviews that connected method, practice and results. The conversations are from a wide variety of research settings, that include mapping the needs of at-risk African American youth, creating dialogue within a local business community, considering learning needs in the 21st century, and identifying the best ways to support teens receiving Supplemental Social Security Income. The authors reflect on the commonalities between the cases and draw out insights into the overall group concept mapping method from each case.

Portable and precise, this pocket-sized guide delivers ready answers for automating everyday system-administration tasks with Windows PowerShell. Zero in on core commands and techniques using quick-reference tables, instructions, and lists. This cutting-edge book on geriatric care management is designed to meet a growing area that spans across the continuum of health care, and is the essential reference for the geriatric care management profession. It gives health care delivery systems, private and public health care practitioners, business people, and schools of nursing, social work, and related health care fields the definitive book on geriatric care management. Handbook of Geriatric Care Management defines the work of the geriatric care manager. It offers an overview of what geriatric care management is, defines duties and procedures, and specifies the organizations that use a geriatric care manager. It provides guidelines for setting up a geriatric care management practice independently or as part of a larger health care delivery system or business, and contains key elements for marketing the practice. Several case studies are included.
