Accounting by Joe Booth is a developer's guide to basic accounting. Written with business app development in mind, Booth discusses some of the most common accounting processes, including assets, multiple accounts, journaling, posting, inventory, and payroll. An appendix includes SQL code examples to get you started with several basic accounting transactions. This updated and expanded second edition of Book provides a user-friendly introduction to the subject, Taking a clear structural framework, it guides the reader through the subject's core elements. A flowing writing style combines with the use of illustrations and diagrams throughout the text to ensure the reader understands even the most complex of concepts. This succinct and enlightening overview is a required reading for all those interested in the subject . We hope you find this book useful in shaping your future career & Business.
