A "service engine soon" (SES) light is an easy way for your Ford's onboard computer system to bring potential engine problems or failing parts to your attention. However, once you have had the repair completed, the light may not reset itself automatically. To turn the light off, you must perform a manual reset of your Ford's computer system.

'Service Engine Soon' light comes on, it means that there is a minor problem with the electronics or the engine of your car. Some manufacturers use them as a check engine light for minor problems. It could also mean that it is time for a scheduled service, such as oil or spark plug replacement. Some manufacturers only have one indicator for both scheduled service and engine problems.

engine soon light came We have a 1999 Ford Expedition that my wife drives. I planned on taking it this week to have it serviced before our travels for the holdiaiy.

Why is my "service engine soon" light on? All Ford Expeditions use the same computer program and code set to record and diagnose engine malfunctions. This code set is known as OBD-II, or On-Board Diagnostics, Series 2. As the name suggests, the program continually monitors the engine through dozens of sensors to warn the driver if any of them exceed the

Diagnosis ...

If the Service Engine Soon indicator light stays lit after you've started the engine, the On Board Diagnostics system (OBD) has detected a malfunction of the vehicle emissions control system. Contact your authorized dealer as soon as possible. If indicator light is blinking, an engine misfire may be occurring, which could damage your catalytic converter.
