involves the axiomatic method. This means that in mathematics, one writes down axioms and proves theorems from the axioms. The justification for the axioms (why they are interesting, or true in some sense, or worth studying) is part of the motivation, or physics, or philosophy, not part of the mathematics. The

MBF3C Grade 11 College Course  
Description. This course enables  
students to broaden their  
understanding of mathematics as a  
problem solving tool in the real world.  
Students will extend their  
understanding of quadratic relations;  
investigate situations involving  
exponential growth; solve problems  
involving compound interest; solve  
financial problems connected with  
vehicle ownership; develop their  
ability to reason by collecting,  
analysing, and evaluating data  
involving one variable; connect ...
