the specific brief to send humans to the Moon, it pushed rocketry to new scales. Its greatest triumph is that it achieved its goal repeatedly with an enviable record of mission success. Haynes' Saturn V Manual tells the story of this magnificent and hugely powerful machine. It explains how each of the vehicle's three stages worked; Boeing's S-IC first stage with a power output as great as the UK's peak electricity consumption, North American Aviation's S-II troubled second stage, Douglas's workhorse S-IVB third stage with its instrument unit brain - as much a spacecraft as a rocket. From the decision to build it to the operation of its engines' valves and pumps, this lavishly illustrated and deeply informative book offers a deeper appreciation of the amazing Saturn V.

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by

announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award–winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone “Listener Line” fielded questions on any subject, day and night. From 1968 to Watergate, Boston’s WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news

clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the “news dissector” Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein’s documentary WBCN and the American Revolution is available as a DVD sold separately.

From the best-selling author of Rubyfruit Jungle and Bingo, here is a writers' manual as provocative, frank, and funny as her fiction. Unlike most writers' guides, this one had as much to do with how writers live as with mastering the tools of their trade. Rita Mae Brown begins with a very personal account of her own career, from her days as a young poet who had

written a novel no publisher wanted to take a chance on, right up to her recent adventures as a Hollywood screenwriter. In a sassy style that makes her outspoken advice as entertaining as it is useful, she provides straight talk about paying the rent while maintaining the energy to write; and dealing with agents, publishers, critics, and the publicity circus; about pursuing journalism, academia, or screen-writing; and about rejecting the Hemingway myth of the hard-living, hard-drinking genius. In addition Brown, a former teacher and writer, offers a serious examination of the writer's tools--language, plotting, characters, symbolism--plus exercises to sharpen the ear for dialogue, and a fascinating, annotated reading list of important works from the seventh century to the late twentieth.
