Freedom Is Accompanied By Courage | BeAnInspirer

Gospel courage is nothing like the bravado of this anxious age. The call to courage is terrifying because the call to courage is a call to be crucified. In The Courage to Stand, bestselling and award-winning author Russell Moore calls readers to a Christ-empowered courage by pointing the way to real freedom from fear—the way of the cross. That way means integrity through brokenness, community through loneliness, power through weakness, and a future through irrelevance.

Courage to Stand - Russell Moore

Courage requires her to choose freely. And freedom requires her to be responsible for personal choice. In this way, courage and freedom are closely linked. But recognizing their connection is much easier than embodying it. Why? Because acting freely is layered with psychological hardship.

In Freedom, Osho outlines three stages of freedom. The first is "freedom from," which is a freedom that comes from breaking out of what he calls the "psychological slavery" imposed by outside forces such as parents, society, or religion. The next stage is "freedom for," a positive freedom that comes from embracing and creating something—a fulfilling relationship, for example, or an artistic or humanitarian vision. And lastly there is "just freedom," the highest and ultimate freedom. This last freedom is more than being for or against something; it is the freedom of simply being oneself and responding truthfully to each moment. The Insights for a New Way of Living series aims to shine light on beliefs and attitudes that prevent individuals from being their true selves. The text is an artful mix of compassion and humor, and readers are encouraged to confront what they would most like to avoid, which in turn provides the key to true insight and power. Freedom helps readers to identify the obstacles to their freedom, both circumstantial and self-imposed, to choose their battles wisely, and to find the courage to be true to themselves.

"Powerful storytelling and immersive art." —Kirkus Reviews (starred review) "Vibrant writing and magical realism lift this story to one of triumph." —Publishers Weekly In this inspiring story in the tradition of American black folktales, an enslaved brother and sister are inspired by a majestic and mysterious bird to escape to freedom in this dramatic and unforgettable picture book. There was nothing civil about that war. They should have called it what it was: a big, bad war. Brother and sister Millicent and John are slaves on Simon Plenty's plantation and have suffered one hurt and heartbreak after another. Their parents had told them old tales of how their ancestors had flown away to freedom just as free and easy as a bird. Millicent and John hold these stories in their hearts long after their parents are gone. "Maybe such a time will come for you," their parents said. Then one day a mysterious bird appears in their lives. The bird transforms them and gives them the courage to set their plan into motion and escape to freedom.

Higher education in the twenty-first century should bring together freedom and knowledge with courage and hope. Why these four concepts? As Goodson argues in Strength of Mind, higher education in the twenty-first century offers preparation for ordinary life. Freedom and knowledge serve as the conditions for cultivating courage and hope within one's ordinary life. More specifically, courage and hope ought to be understood as the virtues required for enjoying ordinary life. If college-educated citizens wish to hold onto the concepts of courage and hope, however, then both courage and hope need to be understood as intellectual virtues. As a moral virtue, courage has become outdated. As a theological virtue, hope violates the logic of the golden mean. Focusing on intellectual virtues also requires shifting from moral perfectionism to rational perfectionism. Rational perfectionism involves keeping impossible demands in view for oneself while constantly and continually striving for one's ""unattained but attainable self."" Goodson defends these arguments by learning from the bits of wisdom found within American Transcendentalism (Emerson, Cavell), German Idealism (Kant, Hegel), Jewish philosophy (Maimonides, Spinoza, Putnam), neo-pragmatism (Putnam, Rorty, West), post-modern theories about pedagogy (Nietzsche, Foucault, Rorty), and secular accounts of perfectionism (Murdoch, Cavell). ""Jacob Goodson is a philosophical theologian everyone must take seriously as his thinking is disciplined yet creative, faithful yet provocative. In this book, he brings that style to bear on a much-maligned institution—the university. Anyone who cares about the university's future should consider in full what he has to offer. Doing so would allow the university to truly serve the church and society."" --Todd Ream, Professor of Higher Education, Taylor University ""Goodson offers a promising new direction for Christian higher education that is inspired not only by faith but a rich philosophical tradition of intellectualism and a reimagining of the virtues of courage, hope, freedom, and knowledge. This new direction is only enlivened by Goodson's honest and enlightening reflections on writing and teaching—twin passions whose interweaving form the backbone of the book."" --Ann W. Duncan, Associate Professor of Religion, Goucher College ""Earnest and somber, Goodson's book states in an accessible and clear way the kind of freedom, courage, and hope Christian liberal arts colleges must help students foster if we wish for them to be the bold thinkers of the next generation. Expansive in breadth of figures while nonetheless deep in conviction, this book reminds us why we became professors in the first place."" --Brad Elliott Stone, Professor of Philosophy, Loyola Marymount University Jacob L. Goodson (University of Virginia) is Assistant Professor of Philosophy at Southwestern College in Winfield, Kansas. Previously, he was a Visiting Assistant Professor at the College of William & Mary in Williamsburg, Virginia. He serves as General Editor for the Journal of Scriptural Reasoning. He researches and writes on American philosophy, the ethics of warfare, sexual ethics, sports ethics, and virtue theory.
