This volume contains the papers presented at IALCCE2018, the Sixth International Symposium on Life-Cycle Civil Engineering (IALCCE2018), held in Ghent, Belgium, October 28-31, 2018. It consists of a book of extended abstracts and a USB device with full papers including the Fazlur R. Khan lecture, 8 keynote lectures, and 390 technical papers from all over the world. Contributions relate to design, inspection, assessment, maintenance or optimization in the framework of life-cycle analysis of civil engineering structures and infrastructure systems. Life-cycle aspects that are developed and discussed range from

structural safety and durability to sustainability, serviceability, robustness and resilience. Applications relate to buildings, bridges and viaducts, highways and runways, tunnels and underground structures, off-shore and marine structures, dams and hydraulic structures, prefabricated design, infrastructure systems, etc.

During the IALCCE2018 conference a particular focus is put on the cross-fertilization between different sub-areas of expertise and the development of an overall vision for life-cycle analysis in civil engineering. The aim of the editors is to provide a valuable source of cutting edge information for anyone interested in life-cycle analysis and assessment in civil engineering, including researchers, practising engineers,

This proceedings volume chronicles the papers presented at the 35th CIB W78 2018 Conference: IT in Design, Construction, and Management, held in Chicago, IL, USA, in October 2018. The theme of the conference focused on fostering, encouraging, and promoting research and development in the application of integrated information technology (IT) throughout the life-cycle of the design, construction, and occupancy of buildings and related facilities. The CIB – International Council for Research and Innovation in Building Construction – was established in 1953 as an

A charismatic young soldier meets a tragic end in this moving and mesmerizing account of the war in Iraq, Hurricane Katrina, and no-safety-net America Zackery Bowen was thrust into two of America's largest recent debacles. He was one of the first soldiers to encounter the fledgling insurgency in Iraq. After years of military service he returned to New Orleans to tend bar and deliver groceries. In the weeks before Hurricane Katrina made landfall, he met Addie Hall, a pretty and high-spirited bartender. Their improvised, hard-

partying endurance during and after the storm had news outlets around the world featuring the couple as the personification of what so many want to believe is the indomitable spirit of New Orleans. But in October 2006, Bowen leaped from the rooftop bar of a French Quarter hotel. A note in his pocket directed the police to the body of Addie Hall. It was, according to NOPD veterans, one of the most gruesome crimes in the city's history. How had this popular, handsome father of two done this horrible thing? Journalist Ethan Brown moved from New York City to the French Quarter in order to investigate this question. Among the newsworthy elements in the book is Brown's discovery that this tragedy—like so many others—could have been avoided if
