how much risk you're willing to take as an investor. Most investments fall into one of five asset classes that range from "conservative" to "risky." Cash equivalents (including money market funds, U.S. Treasury bills and short-term CDs) are on the more conservative end of the spectrum, while equities (stocks) are on the riskier end.

Principles of Long Term Investment Success | TIAA

Offered by University of Illinois at Urbana-Champaign. In this course, we will discuss fundamental principles of trading off risk and return, portfolio optimization, and security pricing. We will study and use risk-return models such as the Capital Asset Pricing Model (CAPM) and multi-factor models to evaluate the performance of various securities and portfolios.
