This book is a practical guide to the very practical subject of Tax Due Diligence. It aims to show that tax due diligence is not a commodity by leading the reader through the tax due diligence process and explaining at each stage how to extract the maximum value from tax due diligence. This book is aimed at anyone in industry or practice who is commissioning or planning a tax due diligence exercise or who is responsible for its performance.

Donation/No CD with book.

Updated in a new 5th edition, this book lays a strong conceptual foundation to understanding the rationales of and limitations to public policy. It gives practical advice about how to do policy analysis while demonstrating the application of advanced analytical techniques through case study examples. Policy Analysis: Concepts and Practices is a comprehensive, accessible, and rich introduction to policy analysis for readers in public policy, public administration, and business programs.

The book covers these competencies in a real-world context. Chapter-opening stories provide a framework for the chapter content, and learning activities and numerous examples from North America help you apply that theory and master each competency. In addition, you'll be guided through a series of activities in developing and showcasing leadership abilities through a culminating professional development portfolio.

Publishing continues to be a major industry worldwide, and this book is designed to assist the thousands of entities that regularly contract into a variety of agreements and need advice in drafting or negotiating the best terms for a deal, or otherwise employing or understanding specific terms used. This book-written and compiled by the in-house counsel of a major publishing house-offers more than 80 forms and templates of all of the major agreements regularly encountered by a publishing company, with strategic commentary on their use. Topics covered include book publishing, periodical publishing, electronic publishing, litigation/litigation avoidance, e-commerce and permissions/subsidiary rights. Each chapter begins with introductory text setting forth key issues and other insights, and then presents the related forms, which in turn are accompanied by drafting and negotiating tips. An accompanying CD-ROM to the book contains all of the forms in electronic format, which can easily be modified for the customer's use.
