The topics throughout the Coursebook have been chosen to appeal to an adult learner's curiosity, and to reflect material that they would naturally read for pleasure in their native language. Critical thinking skills are promoted through the choice of topics and the way the material is exploited.

This new component offers a business related alternative to the existing eWorkbook to the award-winning adult course Global. This takes the innovative eWorkbook and provides business-related content to either act as a supplement to the Global Coursebook or as a stand-alone self-study business English course.

The Global eWorkbook represents an evolution in self-study materials for students. Within a rich multimedia environment it provides a wealth of resources for the learner, enabling them to continue their studies at their own pace, and in their own time.
