Leopold Kronecker, who once wrote that "God made the integers; all else is the work of man."

God Created the Integers - Wikipedia  
Stephen Hawking was one of the most highly celebrated and recognized scientists who has ever lived. He first came to mainstream prominence with the publication of *A Brief History of Time*, and followed with a second triumph, *The Universe in a Nutshell*, and most recently, *The Grand Design*. The media has called Hawking "the most intelligent man in the world today" and "the scientific heir to ...

Hawking (Original Review, 2005)

Random thoughts while attempting to read the book (the edition is shitty: it's full of typos) In EM theory, which is Lorentz invariant, there's a relation between the magnitudes of the E and B fields for light (not if you use Planck units).
