GET BOOK. Bringing together the analytical, aural, and tactile activities that comprise a tonal theory curriculum, The Complete Musician, Second Edition, relies on a diverse repertoire and innovative exercises to explicitly connect theory (writing and analysis), skills (singing, playing, and dictation), and music-making outside the theory class. It provides students with a strong foundation in the principles of writing, analyzing, hearing, singing, and playing tonal harmony and enables them ...

*Student Workbook to Accompany Graduate Review of Tonal ...*

This text is the first graduate music theory review designed specifically to address the one-semester course for beginning graduate students in music. Based on The Complete Musician , the text is more than a shortened version of an undergraduate tonal harmony text; it addresses students as colleagues and explores analytical applications that are appealing and practical, extending beyond the undergraduate level.
