(b) In the general let us consider that the vectors A, B, and C can be written in terms of their components along the x, y, and z directions. Let i, j, and k be the unit vectors along the x, y, and z directions, respectively. So the vectors can be written as. Here, A x and A y are the components of A along the x and y axes, respectively.. B x and B y are the components of B along the x and y ...
