aligns with key guidelines and standards: The National Association for the Education of Young Children's (NAEYC) Professional Preparation Standards (2010); Developmentally Appropriate Practice (DAP) guidelines; Common Core Mathematics Standards; and Next Generation Science Standards (NGSS). The book also addresses STEM/STEAM and the essential domains of child growth and development during the crucial birth-through-eight age range. A valuable resource for the student/future teacher, working professional, or involved parent, MATH AND SCIENCE FOR YOUNG CHILDREN emphasizes the interrelatedness of math and science and how they can be integrated into all other curriculum areas. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Montclair State University case is one of seven that form the basis for the arguments and analyses presented in *Preparing Teachers for Deeper Learning*. Each case outlines the context, vision, and practices guiding a particular program's enactment, and includes sample curricula, assessment and feedback forms, and the program details that have contributed to its success. The cases are valuable reading for educators involved in developing teacher candidates who are self-directed, collaborative, social justice-focused, and prepared to meet the needs of today's students and a changing society.

Positive Psychology has experienced extraordinary growth over the past decade. Emerging research in this area is suggesting new strategies for improving everyday life, healthcare, education systems, organizations and work life, and societies across the globe. This book will be of interest to all applied psychologists, applied researchers, social and organizational psychologists, and anyone interested in applying the science of positive psychology to improvement of the human condition.

This text provides a complete reference to Microsoft Visual Basic Version 4. It teaches specific skills required to program in Visual Basic Version 4, presenting concepts and skills through guided activities, exercises, applications and examples.
