The following is a general guide for installing a big bore kit  
OR rebuilding the GY6 type engine. The photographs in this  
booklet are installing an 80cc bore kit in a 50cc GY6. Readers  
should take note that there can be minor variations in this as  
there are numerous companies in China who manufacture the  
GY6.

The GY6 engine design is a four-stroke single-cylinder in a near horizontal orientation that is used on a number of small motorcycles or scooters made in Taiwan, China, and other southeast Asian countries. It has since become a generic technology. Kymco went on to produce Honda clones such as the Pulsar (CB125), made to Honda standards, as part of their range.

First off I have a Chinese scooter and I know they get a lot of bashing, I hear from everyone I ever ask a question about it from. However it works mostly and gets me to work and back. So, first off, my manual states that I should be using 10w 40 oil in my engine, however my engine has a sticker on it that says to use 15w 40.
