Hartshorne Solutions Chapter 4

In §4 we discuss the special case of curves of genus 1, called elliptic curves. This is a whole subject in itself, quite independent of the rest of the chapter. We have space for only a brief glimpse of some aspects of this fascinating theory.

Chapter 4: Curves - Algebraic Geometry
Solutions to Hartshorne. Below are many of my typeset solutions to the exercises in chapters 2,3 and 4 of Hartshorne's "Algebraic Geometry." I spent the summer of 2004 working through these problems as a means to study for my Prelim. In preparing these notes, I found the following sources helpful: William Stein's notes and solutions

Chapter 4.5 . These chapters introduces the classical subjects of algebraic curves and surfaces. These are fruitful subjects today and are the basis for much of modern research. In particular, the construction of the moduli space of curves depends on much of the material introduced in the fourth chapter.
