Mammal Heart Dissection Guide | Carolina.com

Obtain a sheep heart and place the heart in a dissecting tray. Imagine the heart in the body of a person facing you. The left side of their heart is on their left, but since you are facing them, it is on your right. Position your heart in the tray so that it matches the diagram below.

Sheep Heart Dissection

1. Place a heart in a dissecting pan & rinse off the excess preservative with tap water. Pat the heart dry. 2. Examine the heart and locate the thin membrane or pericardium that still covers the heart. The pericardium or pericardial sac, is a double-layered closed sac that surrounds the heart and anchors it. The pericardium
