Manually, professionally, the more likely it is that he will be married with children. These women have not chosen to be childless. Indeed, most of them yearn for a baby and have gone to extraordinary lengths to become pregnant, often derailing their careers in the process. However, this volume reminds us that, despite the allure and apparent success of IVF treatment, only three to five per cent of women aged 40 and above manage to conceive this way. The age-old business of having babies is eluding an entire generation of successful women: they can be astronauts, chief

diseases. And so the idea
suggested itself that we
should present the main
pathological patterns from
the field of tropical
pathology with particular
reference to their
interconnection. We soon
came to the firm conclusion
that such a compilation
could be successfully
undertaken only by a
pathologist from the English-
speaking world. The classic
practical knowledge of our
British colleagues, which
has matured in world-wide
experience, would be bound

to find its ideal verification here. And so we turned for help to our friend Prof. WALTER PAGEL (Dr. med., Dr. h. c. Basle, Dr. h. c. Heidelberg) in London. He immediately referred us to Prof. HERBERT SPENCER. That we managed to enlist the help of Professor SPENCER is entirely due to Professor PAGEL's kind offices. We owe the fact that the undertaking has been completed in relatively so short a time to Professor SPENCER's exceptional knowledge both of his subject and of the field-workers themselves.

a dc analysis one semester and an ac analysis the following semester there are more experiments for each subject than can be covered in a single semester. The result is the opportunity to pick and choose those experiments that are more closely related to the curriculum of the college or university. All of the experiments have been run and tested during the 13 editions of the text with changes made as needed. The result is a set of laboratory experiments that should have each step clearly defined and results that closely match the theoretical solutions. Two

experiments were added to the ac section to provide the opportunity to make measurements that were not included in the original set. Developed by Professor David Krispinsky of Rochester Institute of Technology they match the same format of the current laboratory experiments and cover the material clearly and concisely. All the experiments are designed to be completed in a two or three hour laboratory session. In most cases, the write-up is work to be completed between laboratory sessions.
