Money Financial

The Chinese were the first to devise a system of paper money, in approximately 770 B.C.

Money is valuable merely because everyone knows that it will be accepted as a form of payment.

However,...

The First Paper Money

Paper money was first invented around 600 AD in China. However, it wasn't commonly used as money in China until around 1000 AD. It took a lot longer before paper money was first used in Europe. Banks began to issue banknotes in the

money evolved out of deeply rooted customs as is shown by the study of primitive forms of money, e.g. cattle, cowrie shells, whales teeth and manillas (ornamental jewellery).

The clumsiness of barter was merely one factor in the development of money, and not the most important one.
