While Arnason's text is informative, this reads more like a piece of survey literature than a detailed account of the history of modern art. I highly suggest a supplemental text, such as _Theories and Documents of Contemporary Art: A Sourcebook of Artists' Writings_ (Kristine Stiles and Peter Selz) for a more complete experience.

Since it first appeared in 1968, History of Modern Art has emphasized the unique formal properties of artworks, and the book has long been recognized for the acuity of its visual analysis.

Over two decades this art historical tour de force has consistently proved the classic introduction to humanity's artistic heritage. From our paleolithic past to our digitised present, every continent and culture is covered in an articulate and well-balanced discussion. In this Seventh Edition, the text has been revised to embrace developments in archaeology and art historical research, while the renowned contemporary art historian Michael Archer has greatly expanded the discussion of the past twenty years, providing a new perspective on the latest developments. The insight, elegance and fluency that the authors bring to their text are complemented by 1458 superb illustrations, half of which are now in colour. These images, together with the numerous maps and architectural plans, have been chosen to represent the most significant chronological, regional and individual styles of artistic expression.

For one/two-semester survey courses in Art History and World Art; courses in Art Appreciation and Studio or Design courses. This text serves as a brief introduction to the history of art, reflecting new interests and issues, expanding the topic to include

Few tales of artistic triumph can rival the story of Zeuxis. As first reported by Cicero and Pliny, the painter Zeuxis set out to portray Helen of Troy, but when he realized that a single model could not match Helen's beauty, he combined the best features of five different models. A primer on mimesis in art making, the Zeuxis myth also illustrates ambivalence about the ability to rely on nature as a model for ideal form. In Too Beautiful to Picture, Elizabeth C. Mansfield engages the visual arts, literature, and performance to examine the desire to make the ideal visible. She finds in the Zeuxis myth evidence of a cultural primal scene that manifests itself in gendered terms. Mansfield considers the many depictions of the legend during the Renaissance and questions its absence during the eighteenth century. Offering interpretations of Angelica Kauffman's paintings, Mary Shelley's Frankenstein, and Picasso's Les Femmes d'Alger, Mansfield also considers Orlan's carnal art as a profound retelling of the myth. Throughout, Mansfield asserts that the Zeuxis legend encodes an unconscious record of the West's reliance on mimetic representation as a vehicle for metaphysical solace. Elizabeth C. Mansfield is associate professor of art history at the University of the South.

In the mid-1980s the sprouting of new movements that had driven modern art since the nineteenth century finally went dormant, sputtering out with a last few half-hearted lels ('pattern painting', 'neo-geo', 'commodity art'). But this was not the end of art history -- far from it. In the years since, art's creative development has remained more vibrant than ever, resulting in a staggering diversity of new forms. Defining Contemporary Art responds to this unique landscape with an innovative approach to art history. Assembled and written by eight of the most prominent curators working today, all of whom have both witnessed and shaped this period, Defining Contemporary Art tells the story of the two hundred pivotal artworks of the past twenty-five years. These artworks include not only the most talked out pieces but also the quietly influential works, those which may have been overlooked at the time of their making but which went on to change the paradigm of their era. Arranged year by year, these two hundred works provide a true chronological depiction of creativity in our era, forming a mosaic in which readers may find their own patterns.

Modern Art and Modernism offers firsthand material for the study of issues central to the development of modern art, its theory, and criticism. The history of modern art is not simply a history of works of art, it is also a history of ideas interpretations. The works of critics and theorists have not merely been influential in deciding how modern art is to be seen and understood, they have also influenced the course it has taken. The nature of modern art cannot be understood without some analysis of the concept of Modernism itself.Modern Art and Modernism presents a selection of texts by the major contributors to debate on this subject, from Baudelaire and Zola in the nineteenth century to Greenberg and T. J. Clark in our own times. It offers a balanced section of essays by contributors to the mainstream of Modernist criticism, representative examples of writing on the themes of abstraction and expression in modern art, and a number of important contributions to the discussion of aesthetics and the social role of the artist. Several of these are made available in English translation for the first time, and others are brought together from a wide range of periodicals and specialized collections.This book will provide an invaluable resource for teachers and students of modern art, art history, and aesthetics, as well as for general readers interested in the place of modern art in culture and history.

In a bold new look at the Modern Art era, Brettell explores the works of such artists as Monet, Gauguin, Picasso, and Dali--as well as lesser-known figures--in relation to expansion, colonialism, national and internationalism, and the rise of the museum. 140 illustrations, 75 in color.

Uses popular and lesser-known paintings to show modern art's reflection of a dying culture and how Christian attitudes can create hope in today's society.
