Following the 1833 Treaty of Chicago, the Potawatomi, once concentrated around southern Lake Michigan, increasingly dispersed into nine bands across four states, two countries, and a thousand miles. How is it, author Christopher Wetzel asks, that these scattered people, with different characteristics and traditions cultivated over two centuries, have reclaimed their common cultural heritage in recent years as the Potawatomi Nation? And why a "nation"—not a band or a tribe—in an age when nations seem increasingly impermanent? Gathering the Potawatomi Nation explores the recent invigoration of Potawatomi nationhood, looks at how marginalized communities adapt to social change, and reveals the critical role that culture plays in connecting the two. Wetzel's perspective on recent developments in the struggle for indigenous sovereignty goes far beyond current political, legal, and economic explanations. Focusing on the specific mechanisms through which the Potawatomi Nation has been reimagined, "national brokers," he finds, are keys to the process, traveling between the bands, sharing information, and encouraging tribal members to work together as a nation. Language revitalization programs are critical because they promote the exchange of specific cultural knowledge, affirm the value of collective enterprise, and remind people of their place in a larger national community. At the annual Gathering of the Potawatomi Nation, participants draw on this common cultural knowledge to integrate the multiple meanings of being Potawatomi. Fittingly, the Potawatomi themselves have the last word in this book: members respond directly to Wetzel's study, providing readers with a unique opportunity to witness the conversations that shape the ever-evolving Potawatomi Nation. Combining social and cultural history with firsthand observations, Gathering the Potawatomi Nation advances both scholarly and popular dialogues about Native nationhood. Published through the Recovering Languages and Literacies of the Americas initiative, supported by the Andrew W. Mellon Foundation.

The White Table is set in many mess halls as a symbol for and remembrance to service members fallen, missing, or held captive in the line of duty. Solitary and solemn, it is the table where no one will ever sit. As a special gift to her Uncle John, Katie and her sisters are asked to help set the white table for dinner. As their mother explains the significance of each item placed on the table Katie comes to understand and appreciate the depth of sacrifice that her uncle, and each member of the Armed Forces and their families, may be called to give. It was just a little white table... but it felt as big as America when we helped Mama put each item on it and she told us why it was so important. "We use a Small Table, girls," she explained first, "to show one soldier's lonely battle against many. We cover it with a White Cloth to honor a soldier's pure heart when he answers his country's call to duty." "We place a Lemon Slice and Grains of Salt on a plate to show a captive soldier's bitter fate and the tears of families waiting for loved ones to return," she continued."We push an Empty Chair to the table for the missing soldiers who are not here..." The Somerset Hills is a group of five beautiful towns in the northern section of Somerset County, New Jersey including Bedminster, Bernards Township, Bernardsville, Far Hills, Peapack & Gladstone. New Jersey is often referred to as the "Cockpit of the American Revolution" and many of these images tie back to the history of the Revolutionary War and the birth of the great American Experience. We give great thanks for this project to Linda Arnold, a great friend of our local history and a artist that focuses on the beauty of the area. Also, a big thanks goes out to the Somerset Hills chapter of the American Association of University Women (AAUW) that shared their 1982 coloring book effort. It was with great pleasure and an honor to work on this collection of coloring images to allow our local young artists the opportunity to learn while they color. The Historical Society of the Somerset Hills (THSSH) will always welcome young artists to autograph and bring their artwork to the Brick Academy and show their creations.

They became America's first black paratroopers. Why was their story never told? Sibert Medalist Tanya Lee Stone reveals the history of the Triple Nickles during World War II. World War II is raging, and thousands of American soldiers are fighting overseas against the injustices brought on by Hitler. Back on the home front, the injustice of discrimination against African Americans plays out as much on Main Street as in the military. Enlisted black men are segregated from white soldiers and regularly relegated to service duties. At Fort Benning, Georgia, First Sergeant Walter Morris's men serve as guards at The Parachute School, while the white soldiers prepare to be paratroopers. Morris knows that for his men to be treated like soldiers, they have to train and act like them, but would the military elite and politicians recognize the potential of these men as well as their passion for serving their country? Tanya Lee Stone examines the role of African Americans in the military through the history of the Triple Nickles, America's first black paratroopers, who fought in a little-known attack on the American West by the Japanese. The 555th Parachute Infantry Battalion, in the words of Morris, "proved that the color of a man had nothing to do with his ability." From Courage Has No Color What did it take to be a paratrooper in World War II? Specialized training, extreme physical fitness, courage, and — until the 555th Parachute Infantry Battalion (the Triple Nickles) was formed — white skin. It is 1943. Americans are overseas fighting World War II to help keep the world safe from Adolf Hitler's tyranny, safe from injustice, safe from discrimination. Yet right here at home, people with white skin have rights that people with black skin do not. What is courage? What is strength? Perhaps it is being ready to fight for your nation even when your nation isn't ready to fight for you. Front matter includes a foreword by Ashley Bryan.
