He is considered the father of modern astrology: Alan Leo opened up the secrets of divination by the stars to the general public in the early 20th century with a popular line of astrology manuals that set off a craze for horoscopes that continues to this day. Here, in this replica of the 1910 fourth edition of his essential primer, Leo

teaches us. . the basics of astronomy required for an understanding of astrology . the nature and character of the twelve signs of the Zodiac . complete breakdowns of the affect of the Sun and the Moon on each house . what a horoscope is and how to cast one . and more. ALSO FROM COSIMO: Leo's The Key to Your Own Nativity, Symbolism and Astrology: An Introduction to Esoteric Astrology, Horary Astrology, and Mars: The War Lord British astrologer WILLIAM FREDERICK ALLAN (1860-1917), aka Alan Leo, published Astrologer's Magazine as well as a line of astrological materials; he founded the Astrological Lodge of the Theosophical Society in 1915.

Named "Christian" to avoid hassles (some things never change), this is the most famous, the most celebrated astrology book in the English language. It has been prized by students ever since its first publication in 1647. The Horary Astrology in these pages, in the hands of a master, is no mere parlour game. It is demanding and precise, combining science and art. Properly used, it will give answer to any well-defined question. William Lilly, famous throughout England for his almanacs & forecasts (he predicted London's Great Fire of 1666), lived during the English Civil War & was a minor historical figure in it. Into his studio came the rich and poor, nobles and commoners, with problems great and small. This new edition restores Lilly's original page layouts, with marginalia. Modern spelling throughout, this edition includes Lilly's bibliography, his original index & a new glossary. Also includes his original woodblock charts, and their modern versions. This is Lilly's great work as he himself knew it. In this volume: Book 1, An Introduction to Astrology, containing the use of an ephemeris; the erecting of a scheme of heaven; nature of the twelve signs of the Zodiac, of the planets; with a most easy introduction to the whole art of astrology. Book 2, The Resolution of All Manner of Questions, by a most methodical way, instructs the student how to judge or resolve all manner of questions contingent unto man, viz,

of health, sickness, riches, marriage, preferment, journeys, etc.  
Some 35 questions inserted and judged.

Will there be peace? Will there be war? Find out with Mundane Astrology. Here, in one volume, are three classic books on the astrology of nations and states, by H.S. Green, Raphael, and C.E.O. Carter: H.S. Green organizes his book planet-by-planet. He tells what each planet will do in the 12 houses. Raphael organizes the topic by house. He tells how mundane houses work when planets are in them. In addition, both authors deal with solar and lunar eclipses, and earthquakes. Green shows the effects of eclipses in the houses, while Raphael describes them by decanate (100 sections of the zodiac). Both mention the effects of comets, although little about these mysterious bodies is known astrologically. Charles Carter, writing after WWII, discusses why astrologers failed to predict the war and what that means for mundane astrology. His plea for better data has largely been met, but the need for more study remains. All three authors give astrological rulerships for countries and cities. These are centuries old and are weighted to England and Europe. Carter's rulers are the most up-to-date. These are the essential texts for serious study of mundane astrology. About the Authors H.S. Green was an astrologer associated with Alan Leo's astrological revival back in the first decade of the 20th century. His various books are highly regarded (all but this one out of print, sadly), but biographical details are sketchy. Raphael was the pen-name of one Robert Cross, 1850-1923. He was the sixth in a series of astrological writers who used the name "Raphael" & remains the best known of them all. He wrote books on virtually all astrological topics. His book on mundane astrology dates from 1910. Charles E.O. Carter, 1887-1968, was one of the outstanding British astrologers of the 20th century. He succeeded Alan Leo as head of the Astrological Lodge of the Theosophical Society, a post he held from 1920 to 1952. He was editor of *Astrology, The Astrologer's Quarterly*, from 1926 to 1959. Carter's persistent genius

reestablished astrology as a serious discipline in England, after two centuries of decline. He wrote his book on Mundane Astrology in reaction to the failure of astrologers to forecast WWII. In 1939, astrologers in London knew there was a full-scale war on in China, they knew the situation with Germany was tense, but they had studied the charts for the year, they knew the fuss would blow over. And they were wrong. Carter set out to discover why, his book was the result.

The New York Times bestseller that helps you explore whether romance is in the stars. Linda Goodman's Love Signs addresses the question asked by everyone familiar with astrology: How do I relate to someone of another sign? Each sign is "related" to the twelve signs of the zodiac in a different and unique way. Each section addresses the differences for a male and a female with the same sign matches. This is an updated edition of Linda Goodman's lively bestseller, which has introduced millions to the concept of astrological compatibility. "What seems to set Goodman's books apart from other stargazing guides is their knowledgeable approach and comprehensive reach." "Newsweek

Julius Firmicus Maternus, a native of Sicily, was a Roman lawyer of the senatorial class. He lived in the first half of the fourth century AD (c.280-c.360). He was also a student of Greek astrology, which forms the basis of this book. Of this book, James Herschel Holden writes, "The Mathesis is the lengthiest astrological treatise that has come down to us from the classical period. It consists of eight books, of which the first forms an introductory essay on astrology, and the rest set forth the fundamentals of Greek astrology. Several sections contain material that is found nowhere else...." (History of Horoscopic Astrology, pg. 66.) The translator writes, "Magic, philosophy, science and theology combine in strange ways in the thinking of the last centuries of the Roman empire..... Firmicus seemed worthy of note for many reasons. He is almost alone as author of works produced both before and after an apparent conversion to Christianity.... He left a lengthy handbook detailing the astrological practices of his day, the only work which has come down to us in its entirety [90% complete: Holden] out of numerous astrological treatises written in the Hellenistic and Roman

The ancient Indian culture of the Vedic times is an extremely rich and exalted culture. During this period, which goes back several thousand years B.C., the various arts and sciences attained a pinnacle of ascendancy. The brilliance of the advocates of this culture lies in the fact that they inculcated it in their daily chores. Over a period of time, the Vedic culture became a way of life in India. Civilizations rose and fell, but the Vedic culture survived because it had become a physiological constituent of its practitioners. Indian astrology has always been an inseparable limb of the Vedic culture. It has been labelled as the 'eye' of the Vedas, the unquestioned repository of knowledge. It is only appropriate that this knowledge be made available to the sincere seeker who does not have easy access to it. The Vedic Astrology Digest is being published with this aim of disseminating knowledge related to Vedic astrology and culture. To achieve this end, the Editor and the Publisher of the Vedic Astrology Digest seek the cooperation and indulgence of all the sincere seekers of ancient wisdom. The Vedic Astrology Digest will be a multi-volume publication. The highlights of the first volume are as follows: \* Highly researched and authentic articles based primarily on the Parashari system of Vedic astrology by some of the most eminent writers, present and past, on the subject. \* An in-depth analysis of the various aspects of the enigmatic eighth house, highlighting its positive aspects no less than the negative. \* A section devoted to misgivings in astrology covering a host of important subjects like sadhe-sati, debilitation, cancellation of debilitation, combustion, retrogression, planetary

conjunction, Mangala-dosha, etc. \* Basics of astronomy as relevant to astrology, incorporating the ancient Indian concepts. \* A small section giving hints about the unique system of Chakras in Vedic astrology. \* Stories of the grahas extracted from the Puranas, showing their deep relevance to astrology. \* A few 'Mantras' extracted from the Vedas as relevant to astrology. \* Rich material on several other aspects of Vedic astrology, including lost horoscopes, Gulika, profession, nakshatras in the zodiac, etc. \* Verily, this work would be found valuable alike by the amateur and the professional, the student and the scholar.
