Horses exhibit a diverse array of coat colors and distinctive markings, described by a specialized vocabulary. Often, a horse is classified first by its coat color, before breed or sex. Horses of the same color may be distinguished from one another by white markings, which, along with various spotting patterns, are inherited separately from coat color.

Horses for Sale - Equine.com

The first domestication of the horses was probably in the steppes of central Asia between 3000 and 4000 B.C. These first animals were kept for meat and milk. As early man became more mobile undoubtedly horses began to be used as pack animals. Oxen were being used in the Middle East at approximately 4000 B.C. for plowing.
