How To Make An Image

Make sure the image format you want to open or create is supported by the program. Common image file extensions

like .GIF , .JPG , and .PNG are supported by all programs.

However, less common extensions, like .PSD , may only be supported by a few programs.

However, less common extensions, like .PSD , may only be supported by a few programs.

However, less common extensions, like .PSD , may only be supported by a few programs.
