Konnikova teaches you how to apply the thinking methods and techniques of Sherlock Holmes to your everyday life. In a nutshell, Maria Konnikova puts twenty-first century neuroscience and psychology on your side.

The "Literally Psyched" columnist for Scientific American draws on neuroscience and psychology studies while analyzing the deductive strategies used by the character of Sherlock Holmes to counsel readers on how to promote mental strength, clearer observation and effective problem-solving.

The New York Times bestselling guide to thinking like literature's greatest detective. "Steven Pinker meets Sir Arthur Conan Doyle" (Boston Globe), by the author of The Confidence Game. No fictional character is more renowned for his powers of thought and observation than Sherlock Holmes. But is his extraordinary intellect merely a gift of fiction, or can we learn to cultivate these abilities ourselves, to improve our lives at work and at home? We can, says psychologist and journalist Maria Konnikova, and in *Mastermind* she shows us how. Beginning with the "brain attic" Holmes's metaphor for how we store information and organize knowledge, Konnikova unpacks the mental strategies that lead to clearer thinking and deeper insights. Drawing on twenty-first-century neuroscience and psychology, *Mastermind* explores Holmes's unique methods of ever-present mindfulness, astute observation, and logical deduction. In doing so, it shows how each of us, with some self-awareness and a little practice, can employ these same methods to sharpen our perceptions, solve difficult problems, and enhance our creative powers. For Holmes aficionados
