The International Baccalaureate® (IB) was founded in Geneva, Switzerland in 1968 as a non-profit educational foundation that endeavored to develop inquiring, knowledgeable and caring young people who would go on to create a better and more peaceful world through intercultural understanding and respect. What began as a single program for internationally mobile students preparing for college, has grown into a series of programs for students up to age 19. Barron's is pleased to offer a brand new review guide for the IB Biology exam. The content of the exam is compiled from the newly revised IB Biology course syllabus. This review book focuses specifically on the syllabus material to ensure that students are fully prepared and includes: An overview of the tests/papers, including an explanation of scoring, command terms, and optional topics based on the brand new 2014 syllabus Connections to the Nature of Science (NOS) theme that runs throughout the syllabus Study tips and strategies for maximizing scores A section on mathematical calculation and statistical analysis review 2 full-length paper 1, 2, and 3 practice exams with fully explained answers The book is formatted to prepare students for either the one-year SL (standard level) or the two-year HL (higher level) biology exam.

This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the Oxford Biology Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. About the series: Reinforce student understanding of all the crucial subject material. Fully comprehensive and matched to the most recent syllabuses, these resources provide focused review of all important concepts, tangibly strengthening assessment potential.

An exciting series that covers selected topics from the Higher Level options in the IB History syllabus. This coursebook covers Higher Level option 3, Topic 10, The Cold War and the Americas 1945-81. The text is divided into clear sections following the IB syllabus structure and content specifications. It offers a sound historical account along with detailed explanations and analysis, and an emphasis on historical debate to prepare students for the in-depth, extended essay required in the Paper 3 examination. It also provides plenty of exam practice including student answers with examiner's comments, simplified mark schemes and practical advice on approaching the Paper 3 examination.
