Training Summary / Abstract: Engineering training: Its one of the main courses in civil engineering. Every student who has passed 117 credit hours or more can take this "three hours credit " course; the period of the training is 40 days. The purpose of this course is to apply the theoretical knowledge into practical work.

~~Jordan University of Science and Technology~~

INDUSTRIAL TRAINING CHE690. 1.0 INTRODUCTION Industrial training is an important component in engineering curriculum. Theories learnt in the entire core and non-core courses will have to be applied into the real working environment in engineering industries, specifically to get them involved in chemical and relevant engineering projects. Prior to the actual training in industries, students are required to make job applications before stepping into the real working environment.
