Invent To Learn: Making, Tinkering, and Engineering in the ...

Somehow, between when Angelo Patri wrote those words (1917) and today, education and hands-on tinkering have become two separate things. But in the past few years, as the wonderful book, Invent to Learn: Making, Tinkering, and Engineering in the Classroom, points out, Maker Spaces and Maker Faires have started popping up across the globe. Laser and 3D printers are making their way into more and more schools, and students and their teachers have started approaching how they learn in whole new ...
