Established as an extracurricular laboratory at the Bauhaus University Weimar back in 2013, it encourages graphic designers to expand their formal repertoire with alternative modes of making. Now in its second edition, the research lab's eponymous logbook presents itself as a richly illustrated reference work for free-thinking creatives. Accompanied by detailed work protocols, the featured selection of science inspired experiments offer starting points for autonomous reconstructions and further research. A comprehensive series of conversations, essays, and artist contributions opens up the space, providing insight into related ideas and approaches in the educational, professional, and broader sociophilosophical context"--Back cover.
