Aaron Shearer's Classic Guitar Technique is used by serious guitarists all over the world and has long been one of the definitive classic guitar methods. The Shearer Method: Classic Guitar Foundations, Shearer's final work, is the first in a series that encapsulates his lifetime experience as America's premier classic guitar pedagogue. This new work is a step-by-step curriculum based on Aaron's innovative and common sense approach that incorporates all the advantages of modern technology. The method includes 63 DVD videos for up-close aural and visual learning, 74 new solo and duet compositions and arrangements (made exclusively for this method by Dr. Alan Hirsh), as well as works by Sor, Carcassi, Giuliani, and more. Plus, recorded tracks masterfully illustrate nuance, tone, and musicality. The book even includes Alfred Music's exclusive TNT 2 software that allows you to slow down and loop tracks for careful practice. In addition, a complete online supplement is available for teachers and students that want a deeper understanding of Shearer's work. The book does not replace Shearer's original classic. It augments and expands on it in ways not imaginable in the early '60s when the original was published. It's a must-have to complete the library of any classic or fingerstyle guitarist! The Shearer Method Classic Guitar Foundations is not just a book but a media experience.

This detailed description and analysis of Madagascar's Merina tribe and its ancient circumcision ritual is significant as a basis for the analysis of anthropological theories of ritual in general.

If you want to create your own game, but don't know where to start, this is the book for you. Whether you've used GameSalad before, or have prior game development experience or not you are sure to learn! Imaging software experience, such as Photoshop, is good to have, but art and assets are provided in the book's resources.

When the bombs fall on London, the elderly Duke de Richleau is forced to consider a problem of the utmost urgency. What methods are the Germans using to discover — with sinister effect — the secret routes of the Atlantic convoys? His answer is bizarre and fantastic. Could it really be that the enemy are in touch with supernatural powers? Can these powers only be overcome by those who have the knowledge and courage to join battle with them on the Astral Plane? The Duke and his supporters face the terrifying challenge from the Powers of Darkness.

The third in the Kindred series finds two angels selected to come to Earth to observe, learn, evaluate, interact, and then report back to God so that life on this planet with all these creatures and things, and all the stuff always going on, might well improve. Now, if the two angels

thought this was going to be a fun excursion, they were a bit optimistic. Follow Leonard and Ellen (who goes by "L"), and who don't get along all that well at any given time, as they pay a visit to earth, explore a lot of nooks and crannies, before returning home to give their big report.

Book Description International Law Attorney, Elle Corday-Whitmire is Hot'lanta's newest and uncommonly amazing rainmaker, in more than one way. Her number one fan, husband U.S. Senator Harrison T. Whitmire, finds her intellectual and physical talents a total package. He's hypnotized by her charmed offerings; she gives "trophy wife" a new meaning. Getting to know Elle is to share in a complicated journey back into her bleak and gloomy Pulaski, Virginia childhood. Desperate to escape from her family's poverty, you'll witness her young ambition taking control to get what she wants. Elle lets nothing stand in her way. Her early sexual awakening and experimentation with her unexplored powers will shock you, as she transforms her ambitions into a promiscuous, turbulent excursion through her school days at Darlington and University of Georgia. Ultimately her entwined and knotted atrocities will electrify your senses and merge you with an underworld as can only be experienced by Elle and her unlikely partners in crime, the beautiful "Buckhead Madam," Roxanne Porter, and the exotic and talented prostitute, Noir. The chemical equation of these vixens and the mystery man out to get them will redefine southern justice and hospitality and lead Elle on a haunted and hedonistic journey that may end her world. Get ready to unleash your inner most erotic senses with this thrilling, captivating concoction of dirty little secrets, true love, murder and revenge. Adult content - consider yourself warned!

Learning the Classic Guitar is a new direction in guitar instruction. Many ideas in these books break new ground. Part Two should go along with part one and it presents the elements of music and procedures for developing ability to sight-read and memorize. It also introduces the visualization concept

Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory. Secession is usually an outcome of the political mobilization of a population on the territory to be detached and, as a political phenomenon, is a subject of study in the social sciences. Its impact on inter-state relations is a subject of study in international relations. But secession is also subject to regulation both in the constitutional law of sovereign states and in international law. Following a spate of secessions in the early 1990s, legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions. Moreover, since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers. This research companion has the following three complementary aims. First, to offer an overview of the current theoretical approaches to secession in the social sciences, international relations, legal theory, political theory and applied ethics. Second, to outline the current practice of international

recognition of secession and current domestic and international laws which regulate secession. Third, to offer an account of major secessionist movements - past and present - from a comparative perspective. In their accounts of past secessions and current secessionist movements, the contributors to this volume focus on the following four components: the nature and source of secessionist grievances, the ideologies and techniques of secessionist mobilization, the responses of the host state or majority parties in the host state, and the international response to attempts at secession. This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession.
