TOC Solved Papers (2010 – 2021)

This book harnesses the expertise of women academics who have constructed innovative approaches to challenging existing sexual disadvantage in the academy. Countering the prevailing postfeminist discourse, the contributors to this volume argue that sexism needs to be named in order to be challenged and resisted. Exploring a complex, intersectional and diverse arrangement of resistance strategies, the contributors outline useful tools to resist, subvert and identify sexist policy and practice that can be deployed by organisations and collectives as well as individuals. The volume analyses pedagogical, curriculum and research approaches as well as case studies which expose, satirise and subvert sexism in the academy: instead, embodied and slow scholarship as political tools of resistance are introduced. A call for action against the propagation of sexism and gender disadvantage in the academy, this important book will appeal to students and scholars of sexism in higher education as well as all those committed to working towards gender e/quality.

India, bounded by the majestic Himalayan ranges in the North and edged by an endless stretch of golden beaches, is the land of hoary tradition and cultural diverse. Vivid kaleidoscope of landscapes, glorious historical sites and royal cities, misty mountain hideaways, colourful people, rich civilizations and festivities craft India Incredible. Recent years have witnessed the educational scene, especially the higher education sector in the State undergoing a sea change in respect of quality, diversity and accessibility in tune with the global trends. Kerala ' s surge in the educational front is to be viewed in the backdrop of the country ' s great legacy in education. India has been a major seat of learning for thousands of years. The country was home to Takshashila, the first university in the world and Aryabhama, the inventor of the digit Zero. In fact, education in Kerala has now become more value added and affordable, thanks to the pro-active initiatives of the State Government and active involvement of the private sector. Moreover, in the higher education market, Kerala has a significant edge in respect of cost which means that there would be growing influx of candidates into the state from outside the state for better and affordable professional education in the days to come. With the most sought after professionals and excellent network of institutes Kerala is becoming the very preferred educational destination in the world. And, we are equipped for you with some elucidations which step-up her significance in the educational map. In Campus Plus, we propose some valuable information along with a number of educational institutes in the State which will be useful for the students and parents in the higher education scenario.

The volume attempts to gauge and analyse the level of denial and deprivation faced by Indian Muslims by evaluating their status after a gap of several years of Sachar Committee (2006) and Rangnath Mishra Commission (2007) Reports. It presents and discusses the current conditions with respect to outcome indicators such as population, education, economy, poverty, unemployment, consumption level, availability of bank loans, infrastructure and civic facilities and representation in government employment. By placing facts in perspective, it also discusses community-specific issues such as use of Urdu, madrasa education and Waqf. In the post-Sachar era, governments started many schemes to improve the condition of Muslims whose reach and impact is assessed with the help of latest data. It presents the social structure of Muslims, presence of OBCs and Dalits and suggests a practical pattern for reservation. It follows up the process of implementation of recommendations of these reports and highlights how the governments adopted tokenism, attempted to implement minor recommendations and shied away from major ones. The volume highlights the lopsided attitude of the previous UPA governments, hostile attitude of the present NDA regime and accelerated marginalization of Muslims in today ' s scenario due to open discrimination, mob-violence, lynching and hate crimes in the name of various communal issues. Please note: Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka

There has been an enormous increase in information relating to microRNA (miRNA) and its strategic role in numerous diseases. This book reviews the emerging role of microRNAs in cerebral ischemia, providing comprehensive details of the links between this small RNA molecule and ischemic stroke, the more prevalent of the two main types of stroke. The chapters address questions relating to microRNA 's function in various pathological features of stroke, like oxidative stress, excitotoxicity and cell death, as well as its role as a biomarker and diagnostic agent, and the current therapeutic interventions. Further, the book highlights the latest research on how miRNAs contribute to neuroregeneration following stroke, discussing the myriad computational tools and databases used in miRNA research, and describes how how miRNA modulates other cerebrovascular diseases. The book concludes with fresh insights into the effect of long non-coding RNA in cerebral ischemia.

Previous Year Question papers are Bible for any exam, Hence same on KEAM (Kerala Engineering and Medical) Entrance Examination also. We prepared almost complete set of available question papers so that it might help you for your success in Kerala entrance.
