Francisco de Miranda – The romantic, silver-haired Venezuelan dreamt of a unified, free Latin American nation, stretching from Louisiana to Tierra del Fuego. Miranda was born in Caracas to a wealthy Venezuelan family in 1750, He devoted his life to revolutionary activity, fighting against the British for the Spanish, visiting the Founding Fathers in the United States, and fighting on both ...

Latin American Revolutionaries | Latino Life

Latin America's civil wars and revolutions did not begin with independence from Spain or even with the Spanish conquest. The Native Americans who lived in the New World often had their own civil wars long before the Spanish and Portuguese arrived. The mighty Inca Empire fought a disastrous civil war from 1527 to 1532 as brothers Huascar and Atahualpa fought for the throne vacated by the death of their father.

Latin American Revolutions Homework Worksheet - Amped Up ...

Latin American revolutionary leader Simon Bolivar is a great example of how American and French Revolutions influenced the region. He was inspired by both in leading movements for independence ...

A major new interpretation recasts U.S. history between revolution and civil war, exposing a dramatic reversal in sympathy toward Latin American revolutions. In the early nineteenth century, the United States turned its idealistic gaze southward, imagining a legacy of revolution and republicanism it hoped would dominate the American hemisphere. From pulsing port cities to Midwestern farms and southern plantations, an adolescent nation hailed Latin America's independence movements as glorious tropical reprises of 1776. Even as Latin Americans were gradually ending slavery, U.S. observers remained energized by the belief that their founding ideals were triumphing over European tyranny among their "sister republics." But as slavery became a violently divisive issue at home, goodwill toward antislavery revolutionaries waned. By the nation's fiftieth anniversary, republican efforts abroad had become a scaffold upon which many in the United States erected an ideology of white U.S. exceptionalism that would haunt the geopolitical landscape for generations. Marshaling groundbreaking research in four languages, Caitlin Fitz defines this hugely significant, previously unacknowledged turning point in U.S. history.

Hofman, a researcher with the Chile-based Economic Commission for Latin America and the Caribbean, uses growth accounting methods and previously unavailable long-term series data to assess the economic performance of the region during the century from a comparative and historical perspective. In particular he compares Latin American economies to those of advanced capitalist economies, to newly industrialized economies, and to Spain and Portugal because of the historical ties. He looks at the reasons for the poor or negative growth during the 1980s and the apparent recovery in the 1990s and at such problems as debt, income inequality, high inflation, cyclical instability, and political and policy instability. Annotation copyrighted by Book News, Inc., Portland, OR

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

A major intellectual history of the American Revolution and its influence on later revolutions in Europe and the Americas The Expanding Blaze is a sweeping history of how the American Revolution inspired revolutions throughout Europe and the Atlantic world in the eighteenth and nineteenth centuries. Jonathan Israel, one of the world's leading historians of the Enlightenment, shows how the radical ideas of the American founders set the pattern for democratic revolutions, movements, and constitutions in France, Britain, Ireland, the Netherlands, Belgium, Poland, Greece, Canada, Haiti, Brazil, and Spanish America. The book traces how American efforts to implement Radical Enlightenment ideas drove revolutions abroad, as foreign leaders followed the American example and espoused American democratic values. The first major new intellectual history of the age of democratic revolution in decades, The Expanding Blaze returns the American Revolution to its global context.

The complete Cambridge History of Latin America presents a large-scale, authoritative survey of Latin America's unique historical experience from the first contacts between the native American Indians and Europeans to the present day. Colonial Spanish America is a selection of chapters from volumes I and II brought together to provide a continuous history of the Spanish Empire in America from the late fifteenth to the early nineteenth centuries. The first three chapters deal with conquest and settlement and relations between Spain and its American Empire; the final six with urban development, mining, rural economy and society, including the formation of the hacienda, the internal economy, and the impact of Spanish rule on Indian societies. Bibliographical essays are included for all chapters. The book will be a valuable text for both students and teachers of Latin American history.

Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and established the first black republic. In this collection of his writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality.

In a subtle but powerful reading of the shifting relationships between development, hegemony, and social transformation in post-independence Latin America, Ronaldo Munck argues that Latin American subaltern knowledge makes a genuine contribution to the current search for a social order which is sustainable and equitable.

Sample Text

[In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.
