Leadership, is a topic that's never convincingly satisfiable after reading just one book. Hence I have tried to collate as much as possible the best in my opinion here. This book can be used in two ways—One as just a good self read to understand Leadership as a whole. Second as a medium to train others providing great resource to trainers and educators for developing good leaders all over the world. Please feel free to use the matter from here and enhance it further as per your training needs. This might be just a drop in the ocean effort from my end but as Mother Teresa would put it—"Each drop gathered forms an ocean"...I have started for you to continue...Hope this drop in the ocean adds value to your life and training sessions...Good leaders build good nations and good nations would lead to building a peaceful world.

Gives trainers information they need to teach and apply leadership competencies participants need. Featuring adaptable exercises on a range of leadership topics, this collection of activities is an all-in-one resource for trainers seeking to prepare leaders.

Join the global movement that's making corporations more people-centric to achieve great results. The world is facing a global leadership crisis. Seventy-seven percent of leaders think they do a good job of engaging their people, yet 88 percent of employees say their leaders don't engage enough. There is also a high level of suffering in the workplace: 35 percent of employees would forgo a pay raise to see their leaders fired. This is an enormous waste of human talent—despite the fact that \$46 billion is spent each year on leadership development. Based on extensive research, including assessments of more than 35,000 leaders and interviews with 250 C-level executives, The Mind of the Leader concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning, purpose, connection, and genuine happiness in their work. But more than a description of the problem, The Mind of the Leader offers a radical, yet practical, solution. To solve the leadership crisis, organizations need to put people at the center of their strategy. They need to develop managers and executives who lead with three core mental qualities: mindfulness, selflessness, and compassion. Using real-world inspirational examples from Marriott, Accenture, McKinsey & Company, LinkedIn, and many more, The Mind of the Leader shows how this new kind of leadership turns conventional leadership thinking upside down. It represents a radical redefinition of what it takes to be an effective leader—and a practical, hard-nosed solution to every organization's engagement and execution problems.
