Young children ask so many questions about their bodies and how they were made. This book answers those normal questions and helps even pre-school children feel proud and comfortable about their own bodies. It is useful for parents, teachers, librarians and health professionals to use with children.

From the expert team behind IT'S PERFECTLY NORMAL and IT'S SO AMAZING! comes a book for younger children about their bodies — a resource that parents, teachers, librarians, health care providers, and clergy can use with ease and confidence. Young children are curious about almost everything, especially their bodies. And young children are not afraid to ask questions. What makes me a girl? What makes me a boy? Why are some parts of girls' and boys' bodies the same and why are some parts different? How was I made? Where do babies come from? Is it true that a stork brings babies to mommies and daddies? IT'S NOT THE STORK! helps answer these endless and perfectly normal questions that preschool, kindergarten, and early elementary school children ask about how they began. Through lively, comfortable language and sensitive, engaging artwork, Robie H. Harris and Michael Emberley address readers in a reassuring way, mindful of a child's healthy desire for straightforward information. Two irresistible cartoon characters, a curious bird and a squeamish bee, provide comic relief and give voice to the full range of emotions and reactions children may experience while learning about their amazing bodies. Vetted and approved by science, health, and child development experts, the information is up-to-date, age-appropriate, and scientifically accurate, and always aimed at helping kids feel proud, knowledgeable, and comfortable about their own bodies, about how they were born, and about the family they are part of.

Aimed at 8 to 12 year olds, this book presents factual information about babies, bodies, love, sex, reproduction and families in a non-threatening, easy to understand way.

The trusted, New York Times best-selling author of It's Perfectly Normal presents the first in a charming and reassuring new picture book series for preschoolers that answers questions that many children ask about themselves and their friends in an entertaining and straightforward way.

Written for adolescents, this book provides frank, up-to-date abd reassuring information on all aspects of growing up, puberty, sex and sexual health.

From the author of How Are You Feeling Today? and Will You Be My Friend? comes a brand new picture book all about the birds and the bees (sex education). It's natural for young children to have questions about their bodies and where they came from, but it can seem a daunting task to answer honestly so that they understand the subtleties of puberty, sex, reproduction and relationships, and are comfortable with their bodies. This books uses clear, easy to understand language to answer complex questions about sex and relationships, and covers all manner of tricky subjects from puberty to consent with delicate accuracy and honesty. Filled with bright, fun illustrations and helpful advice for parents and carers, Let's Talk About the Birds and the Bees is the perfect book for explaining the facts of life to small children.

" An outstanding book. . . . Meets the needs of those in-between or curious kids who are not ready, developmentally or emotionally, for It ' s Perfectly Normal. " —Booklist (starred review) How does a baby begin? What makes a baby male or female? How is a baby born? Children have plenty of questions about reproduction and babies—and about sex and sexuality, too. It ' s So Amazing! provides the answers—with fun, accurate, comic-book-style artwork and a clear, lively text that reflects the interests of children age seven and up in how things work, while giving them a healthy understanding of their bodies. Created by the author and illustrator of It ' s Perfectly Normal, this forthright and funny book has been newly updated for its fifteenth anniversary.

Provides an introduction to human sexual development and sexuality meant to be read together by a parent and child, with a section that provides guidance for parents.

Who knows the best way to be mad? Bear stomps. Hare hops. Bobcat screams. Mouse? He just can't get it right. But when he finds the way that works for him--still and quiet--he discovers that his own way might be the best of all. Linda Urban's story about self-expression is both sweet and sly, and Henry Cole's cast of animal friends is simply irresistible.

A latest entry in the series that includes It's NOT the Stork! follows the adventures of young Gus and Nellie, who watch their mother's pregnancy and anticipate the arrival of a new sibling while learning engaging facts about how unborn babies develop.
