Lister. Another common older narrowboat engine, these have a reputation for simplicity and bulletproof reliability. Some people really like the 'put-put-put' sound of these engines too. Most are air cooled and will require your boat's engine bay to have good venting to operate. The downside to these engines is they can be rather smokey and noisy.

### **What is the best narrowboat engine? - Canal Boat UK**

Very simply the commonest type of engine fitted to a narrow boat is the diesel fuelled engine. Diesels are used regardless of whether the engine is used directly via a gearbox to drive a propeller or indirectly to provide charge to a large battery bank for electric propulsion. Diesel vs Electric
