GP38/SD40 Locomotive Operating Manual - HP Trainz The data appearing in this manual is intended as a guide and as an aid in explaining the locomotive equipment used during operation. The informa- tion contained in the manual is based on data available when released for printing. Minor differ- ences encountered in equipment are due to changes made after the manual was sent to press.

La Grange, Illinois The reverser handle is the lowest handle on the control stand. It has three positions: left, centered, and right. When the handle is moved to the right, circuits are set up for the locomotive to move in that direction. When the handle is moved to the left, the locomotive will move in that direction when power is applied.
