Lord of the Flies dramatizes the conflict between the civilizing instinct and the barbarizing instinct that exist in all human beings. The artistic choices Golding makes in the novel are designed to emphasize the struggle between the ordering elements of society, which include morality, law, and culture, and the chaotic elements of humanity's savage animal instincts, which include anarchy, bloodlust, the desire for power, amorality, selfishness, and violence.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

A plane crashes on a desert island and the only survivors, a group of schoolboys, assemble on the beach and wait to be rescued. By day they inhabit a land of bright fantastic birds and dark blue seas, but at night their dreams are haunted by the image of a terrifying beast. As the boys' delicate sense of order fades, so their childish dreams are transformed into something more primitive, and their behaviour starts to take on a murderous, savage significance. First published in 1954, Lord of the Flies is one of the most celebrated and widely read of modern classics. Now fully revised and updated, this educational edition includes chapter summaries, comprehension questions, discussion points, classroom activities, a biographical profile of Golding, historical context relevant to the novel and an essay on Lord of the Flies by William Golding entitled 'Fable'. Aimed at Key Stage 3 and 4 students, it also includes a section on literary theory for advanced or A-level students. The educational edition encourages original and independent thinking while guiding the student through the text - ideal for use in the classroom and at home.

Before The Hunger Games there was Lord of the Flies Lord of the Flies remains as provocative today as when it was first published in 1954, igniting passionate debate with its startling, brutal portrait of human nature. Though critically acclaimed, it was largely ignored upon its initial publication. Yet soon it became a cult favorite among both students and literary critics who compared it to J.D. Salinger's The Catcher in the Rye in its influence on modern thought and literature. William Golding's compelling story about a group of very ordinary small boys marooned on a coral island has become a modern classic. At first it seems as though it is all going to be great fun; but the fun before long becomes furious and life on the island turns into a nightmare of panic and death. As ordinary standards of behaviour collapse, the whole world the boys know collapses with them—the world of cricket and homework and adventure stories—and another world is revealed beneath, primitive and terrible.Labeled a parable, an allegory, a myth, a morality tale, a parody, a political treatise, even a vision of the apocalypse, Lord of the Flies has established itself as a true classic. "Lord of the Flies is one of my favorite books. That was a big influence on me as a teenager, I still read it every couple of years." -Suzanne Collins, author of The Hunger Games "As exciting, relevant, and thought-provoking now as it was when Golding published it in 1954." -Stephen King

During The Post-War Years The Experimental Tendency In British Novel Continued, But The Critics Lamented That The Mid-Twentieth Century British Literature Produced No Ulysses. William Golding S Lord Of The Flies (1954) Was Accepted As An Experiment With The Restoration Of Fable In English Fiction, A Reconstruction At An Adult Level Of R.M. Ballantyne S Coral Island. Thanks To The Nobel Prize Awarded To Golding In 1983, Lord Of The Flies Came To The Limelight And Its Underlying Philosophy Has Been VariouslY Interpreted Since Then. In The Face Of An Upsurge In Golding Criticism, And More Specifically, In Lord Of The Flies, The Novel Demands Fresh Discussions. The Present Book Seeks To Acquaint The Readers First With The Theme Of The Novel, And Then With The Discourses Invited By The Theme.A Detailed Analysis Of Each Of The Chapters Of The Novel Is The Special Attraction Of This Critical Study. It Is Not Just A Summary, But A Critical Analysis Of The Events, Symbols, Images And Reflections Of The Characters Introduced In The Novel. The Chapter-Wise Discussion Will Inspire The Readers To Go Through The Original Text Thoroughly For Having A First Hand Knowledge Of Golding S Art. It Will Also Help The Readers To Develop An Understanding Of Golding As A Novelist Even Before Reading The Original Text.The Chapters On Golding S Concept Of Evil And The Innate Depravity Of Man, Potential Savagery Of Children, Sin And Expiation, The Post-World War Scenario And Elements Of Post-Colonial Writing Are Designed To Project Lord Of The Flies As A Post-Colonial Novel Of Ideas. The Book Also Contains Separate Chapters On Narrative Skill, Characterization, Plot And Structure Which Are Helpful For The Students. The Discussion Is Marked By A Critical Insight That Serves Not Only The Advanced Scholars But Also The Common Students Who Will Be Benefited By The Lucid Presentation.

The novel's protagonist is a British Roman Catholic priest, Father Percy Franklin, who looks identical to the mysterious U.S. Senator Julian Felsenburgh of Vermont. The senator appears as a lone and dramatic figure promising world peace in return for blind obedience. No one quite knows who he is or where he comes from, but his voice mesmerizes. Under his leadership, war is abolished. Felsenburgh becomes the President of Europe, then of the world, by popular acclaim. Everyone is fascinated with him, yet still no one knows much about him. People are both riveted and frightened by the way he demands attention. Most follow without question. Having been a close observer of President Felsenburgh's rise, Father Franklin is called to Rome, a Hong Kong-style enclave ruled by Pope John XXVI and raised to the College of Cardinals. Meanwhile, defections among bishops and priests increase. At Cardinal Franklin's instigation, the pope abolishes the Eastern Catholic Churches and forms a new religious order, the Order of Christ Crucified. All its members, including the Pope, vow to die in the name of the faith.

This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

Offers excerpts dealing with major themes of Golding's novel, including the ignoble savage, education, adventure stories, religion, biology and evolution, and war and its aftermath, and suggests topics for further exploration.

The boy with fair hair lowered himself down the last few feet of rock and began to pick his way towards the lagoon. Though he had taken off his school sweater and trailed it now from one hand, his grey shirt stuck to him and his hair was plastered to his forehead. All round him the long scar mashed into the jungle was a bath of heat. He was clambering heavily among the creepers and broken trunks when a bird, a vision of red and yellow, flashed upwards with a witch-like cry; and this cry was echoed by another.

AN INSTANT NEW YORK TIMES BESTSELLER The "lively" (The New Yorker), "convincing" (Forbes), and "riveting pick-me-up we all need right now" (People) that proves humanity thrives in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success as a species. If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true? International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic—it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling. "The Sapiens of 2020." -The Guardian "Humankind made me see humanity from a fresh perspective." -Yuval Noah Harari, author of the #1 bestseller Sapiens Longlisted for the 2021 Andrew Carnegie Medal for Excellence in Nonfiction One of the Washington Post's 50 Notable Nonfiction Works in 2020
