You can't change the past. . . . When Michael fires his new rifle into the air on his seventeenth birthday, he never imagines that the bullet will end up killing someone. But it does—and Michael's world is changed forever. Desperate, he wrestles with his guilt and keeps silent as his life begins to fall apart. When Jenna's father is killed in a freak Fourth of July accident, she's devastated. As she grieves, she tries to understand why she no longer feels comfortable with her boyfriend, Jason, and why a guy named Michael keeps appearing in her dreams. . . . Swallowing Stones is a haunting novel about choices . . . and devastating consequences.

Practical Clinical Oncology, 2nd edition, provides a practical and comprehensive review of the current management of common types of cancer. Introductory chapters give background information on the main treatment modalities and other key issues such as acute oncology, palliative care and clinical research, with new chapters on pathology and advanced external beam radiotherapy. Subsequent chapters describe the diagnosis and treatment of malignancies, based on tumour site or type. Finally, multiple choice questions allow the reader to test their knowledge. This edition has been fully updated to reflect the most current developments in radiotherapy, tumour biology and drug therapy. With an emphasis on practical aspects of cancer care that will be relevant to day-to-day decision making, this book is an invaluable resource on contemporary clinical management of the cancer patient for all trainees and practitioners involved in clinical oncology, medical oncology and palliative care, as well as for specialist nurses and radiographers.

Education Exposed 2 follows on from Sam Strickland's first book, Education Exposed. The book is a pacy, punchy and forthright critique of how to drive the curriculum, behaviour and teaching within a school and the pivotal role that leadership plays in pursuing the halcyon dream. The book is neatly laid out, with each chapter identifying common curricular misconceptions, posing lots of key questions to consider and offering multiple practical ideas that you can take away. Every chapter ends with five key takeaway points for you to carefully consider. The book neatly interplays theory, research, Sam's expertise and experience coupled

with a practical and real world approach. The first section of the book champions the importance of the curriculum and knowledge. The second section examines behaviour and how this can be driven by senior leaders coupled routine driven approach to learning. This section also takes you through a series of curriculum tools and teaching approaches that will assist you in thinking about how to implement and drive the curriculum. The third section of the book examines leadership; how leaders can champion the teacher as the expert and how a school culture can be supported and monitored carefully. Education Exposed 2 is relevant for anyone working in a school, irrespective of their position or role. It is designed to be an accessible, versatile and quick read. Equally, it can be used as a dip-in and dip-out guide. Multiple practical approaches and strategies are offered as key take-away points.
