Marvin Heemeyer was a blue-collar man whose greatest joy in life was to see his muffler-repair shop prosper. When he felt the government of Granby, Colorado, was conspiring against him and the success of his business, he decided to take action. He did not take his vengeance by walking into the town hall with a gun. Nor did he build bombs and deliver them to local politicians. No, Marvin was more ingenious than that. He put his welding skills to work. In so doing, Marvin Heemeyer made history as one of the most original, complex, controversial, and misunderstood criminals in history. *Malice* is the story of his life leading up to his one-of-a-kind crime. Exhaustively researched, author Liam Llewellyn portrays the story in its entirety, then poses an alternative interpretation. *Malice* challenges the reader to ask such questions as: Do governments conspire against individuals? In the wake of enormous tragedy, do governments tell the truth? What is a criminal? Do two wrongs make a right?

Offers information for buyers of electronic equipment, from cellular phones to televisions, including ratings charts and a brand-name directory

Why waste a thousand words? Photos tell stories. And the more you can do with your digital camera, the better the story you can tell. So build a remote control and sneak up on that picture that keeps eluding you. Create an adapter that lets you use SLR-type lenses on your point-and-shoot. Play with lens magnification or create a pinhole lens. Beef up flash memory. And that's just where the tale begins. The ending is up to you. Hack any digital camera Illustrated step-by-step directions for more than 20 hacks, including: Building triggers Accessing raw sensor data Making accessory lens adapters Eliminating the infrared blocking filter Extending lenses Making reverse macro adapters Building a monopod Creating bicycle and car mounts Hacking microdrives from other devices
