The sudden outbreak of the COVID-19 pandemic has curbed human lifestyle by imposing restrictions on regular daily movements that had been taken for granted. Due to the pandemic, the welfare segment has received more attention, and every possible effort is being made to prioritize the services at the top. This can be made possible while using the latest tools, technologies, and resources that impact the human culture and welfare of well-being. Novel methods and devices that make the welfare services more efficient, adaptive, transparent, and cost-effective need to be explored. The Handbook of Research on Lifestyle Sustainability and Management Solutions Using AI, Big Data Analytics, and Visualization offers extensive research on lifestyle management and services that contribute towards indication, detection, conduction, protection, and technological enhancement including machine learning, deep learning, artificial intelligence, big data analytics, and visualization. It also provides mechanisms that can improve lifestyle monitoring and help in increasing the immunity of the human body. Covering topics such as big data, robot therapy, and wearable technology, it is ideal for students, researchers, technologists, IT specialists, computer engineers, systems engineers, data scientists, doctors, hospital administrators, engineers, academicians, and technology providers.

Approximately 26,000 firms and individuals -- more than 1,000 new to each edition of this invaluable directory -- are listed, arranged into subject sections covering 14 general fields of consulting activity ranging from agriculture to computer technology. In all, more than 400 specialties are represented, including finance, computers, fundraising and many others. Entries provide complete contact information as well as concise descriptions of each organization's activities. Includes a free inter-edition supplement.

This book is intended for the statistician or student interested in becoming a statistical consultant, as well as clients who need to understand what is involved in the consulting process. It discusses different consulting environments, provides detailed descriptions of communication skills a consultant must possess, and provides concrete examples and case-studies of varying complexity. Emphasis is placed on the importance of engaging the client's understanding of the purpose and interpretation of statistical procedures.

Although some progress has been made in recent decades in getting women into top positions in government, business and education, there are on-going, persisting challenges with efforts to improve the opportunities for women in leadership. The Handbook of Research on Gender and Leadership comprises the latest research from the world's foremost scholars on women and leadership, exposing problems and offering both theoretical and practical solutions on how to best strengthen the impact of women around the world.

The Fiscal Institutions of Tomorrow, the first publication in the series Institutions for People, addresses issues of public management that are key to economic development in Latin America and the Caribbean. It presents the challenges that the countries in the region face to strengthen fiscal institutions with a view to the future and with policy recommendations. This publication serves as reference material for policymakers and economic analysts interested in studying the evolution of fiscal institutions in the region and identifying areas to improve governance.
