Use business process
flows to define a set of
steps for people to
follow to take them to a
desired outcome. These

Access Free Managing

Business Process Flows Solutions
steps provide a visual indicator that tells people where they are in the business process.

Business process flows reduce the need for training because new users don't have to focus on which entity they should be using.

The whole unit is

represented by the

averages of these three

measures. • Flow time

Access Free Managing

measures the time required for each unit to be produced. • Average throughput is to know number of units flow through process as per unit time. This tells on what rate each product to be sold.
