'A compelling biography of one of the greatest men of the modern age. Stanford is particularly brilliant on the tensions inside Luther's private and spiritual life. This is a very fine book, written with a flourish.' Melvyn Bragg The 31st of October 2017 marks the 500th anniversary of Martin Luther pinning his 95 'Theses' - or reform proposals - to the door of his local university church in Wittenberg. Most scholars now agree that the details of this eye-catching gesture are more legend than hammer and nails, but what is certainly true is that on this day (probably in a letter to his local Archbishop in Mainz), the Augustinian Friar and theologian issued an outspokenly blunt challenge to his own Catholic Church to reform itself from within - especially over the sale of 'indulgences' - which ultimately precipitated a huge religious and political upheaval right across Europe and divided mainstream Christianity ever after. A new, popular biography from journalist Peter Stanford, looking at Martin Luther from within his Catholic context, examining his actual aims for Catholicism as well as his enduring legacy - and where he might fit within the church today. 'Peter Stanford makes the life of Luther into a thrilling narrative, told from a modern Catholic perspective' Antonia Fraser

A thought-provoking reflection on the practice and history of pilgrimage, and a compelling exploration of its relevance today. Pilgrimage, a global ritual embraced by nearly all faiths, is one of civilization 's most enduring traditions. In this compelling book, author and journalist Peter Stanford reflects on the reasons people have walked along the same sacred paths through the ages. Through this history, Stanford explores how the experiences of the first pilgrims to Jerusalem, Mecca, and Santiago de Compostela compare to the millions of people who embark on life-changing physical and spiritual journeys today. Pilgrimage traverses sacred landscapes around the world, from the Basilica of Our Lady of Guadalupe in Mexico City to the monolithic rock-cut churches of Lalibela, Ethiopia and the riverbanks of the Kumbh Mela in India. Stanford explores the historical and spiritual significance of these places of healing and reflection and discusses their roles as crossroads. Although pilgrimage is usually viewed as an individual 's escape from the everyday to refocus the mind and soul, institutional and national struggles for power have always had an impact on the way pilgrims experience their own personal journey. Guiding readers through the global history of pilgrimage, this thought-provoking book educates a new generation that may seek solace, clarity, and wonder by following in the footsteps of travelers from the past.

Catholicism - an Introduction is a comprehensive guide to the history, key beliefs and practices of the Catholic faith.

Peter Stanford has been interviewing people of faith during his thirty-five years as a journalist at national papers including the Daily Telegraph, the Independent and The Guardian, as well as for the church press. What fascinates him in such conversations is how creating a space to talk unguardedly about faith unlocks so much more: what shaped and continues to shape the public and private lives of high-profile names; how those values connect with the work they are best known for; and why they believe the search for faith makes them who they are. This collection of the best of his interviews - some with household names, others with those not so immediately familiar, but all people of achievement with a resonant story to tell - aims to lift the lid on a topic that has become increasingly marginalised in the public square of our increasingly secular and sceptical society: where to 'do God' can feel like breaking a taboo. Put together, the 44 subjects collectively demonstrate that, rather than being all about doctrine and dogma, there are as many ways of exploring faith as there are individuals currently doing it. These intriguing interviews with activists, writers and artists, politicians, rebels and those who have taken vows will appeal to committed believers, those on the fringes of faith, and those who look in from the outside with curiosity. Includes interviews with Sara Maitland | Sister Wendy Beckett | Della Smith | The Revd Richard Coles | Dermot O'Leary | Cherie Blair | Archbishop Desmond Tutu | Bronwen Astor | Amos Oz | Nick Cave

'An intriguing exploration of the many roles that angels have played in spiritual life.' - The Sunday Times: Nick Rennison 'In a 2016 poll, one in 10 Britons claimed to have experienced the presence of an angel, while one in three remain convinced that they have a guardian angel. These are huge numbers and mean that, on some counts, angels are doing better than God.' In the secular, sceptical, post-Christian world of the West, continuing faith in angels is both anomaly and comfort. But what exactly are angels, and why have so many in different times and contexts around the globe believed in them? What is their history and role in the great faiths and beyond their walls? Are angels something real, a manifestation of divine concern? Or part of the poetry of religion? And can they continue to illuminate a deeper truth about human existence and the cosmos? These are not new questions. They have been asked over millennia, right up to the present day, as writer, journalist and broadcaster Peter Stanford explores in Angels, his latest investigation into the history, theology and cultural significance of religious ideas. There is no better navigator through the space in which art, culture and spirituality meet than Peter Stanford Cole Moreton, Independent on Sunday
