Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.

3 things to know about the focus of Dynamic Business Law, 3e: Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. "Legal strategies act as a springboard for businesses to gain competitive advantages, identify opportunities to reach goals, and create value in the firm. Business managers are increasingly tasked with understanding the basics of legal strategy and recognizing which strategies tie into their business needs and influence their decision making. Because today's students are tomorrow's business managers and owners, empowering them with knowledge of business law and the basics of legal strategy provides a strong foundation for their future success in the business world"--

In 1963, the first edition Legal and Regulatory Environment of Business, led by Bob Corley, started a new course emphasizing the legal environment in which business is conducted. By focusing on the public nature of how government regulates business activities, rather than simply how businesses privately make transactions, a movement away from traditional Business Law began. Through its previous 12 editions, Legal and Regulatory Environment of Business by Reed, Shedd, Morehead and Corley has been the leader in setting the standard for materials covered in an introduction to the legal and regulatory environment of business.
