 MCMAP is just the Marine Corps' training system for personal combatives. There's nothing 'special' about it. It's more of an amalgamation of skills that are taught in a variety of popular martial arts, and skills that the military already teaches (like how to clock someone with your rifle butt, or bayonet them)

Commander's Intent. MCMAP is an integrated, weapons-based system that incorporates the full spectrum of the force continuum on the battlefield, and contributes to the mental, character and physical development of Marines. It is the intent that MCMAP enhances the transformation from civilian to Marine by capitalizing on the zeal of entry level training, and developing the Marine ethos in a progressive manner throughout a Marine's career. Concept of operations (a) All Marines, regardless of age, grade or sex must perform MCMAP qualifications. (b) Commanders shall conduct MCMAP training in accordance with the instructions contained. (e) The prescribed minimum requirements of this Order should not be interpreted as limiting the commander. Commanders are encouraged to conduct additional MCMAP training in a progressive, safe manner to enhance unit performance and fitness levels of Marines.

Marine Corps Reference Publication (MCRP) 3-02B. Marine Corps Martial Arts Program (MCMAP), is designed for Marines to review and study techniques after receiving initial naming from a certified Marine Corps martial arts instructor or martial arts instructor trainer. It is not designed as a self-study or independent course. The true value of Marine Corps Martial Arts Program is enhancement to unit training. A frilly implemented program can help instill unit esprit de corps and help foster the mental, character, and physical development of the individual Marine in the unit. This publication guides individual Marines, u leaders, and martial arts instructors/instructor trainers in the proper tactics, techniques, and procedures for martial arts training. MCRP 3-02B is not intended to replace supervision by appropriate unit leaders and martial arts instruction by qualified instructors. Its role is to ensure standardized execution of tactics, techniques, and procedures throughout the Marine Corps. Although not directive, this publication is intended for use as a reference by all Marines in developing individual and unit martial arts programs. For policy on conducting martial arts training, refer to Marine Corps Order 1500.59, Marine Corps Martial Arts Program (MCMAP). WARNING Techniques described in this manual can cause serious injury or death. Practical application in the training of these techniques will be conducted in strict adherence with training procedures outlined in this manual as well as by conducting a thorough operational risk assessment for all training.

The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.

In response to the irregular warfare challenges facing the U.S. in Iraq and Afghanistan in 2005, General James Mattis--then commander of Marine Corps Combat Development Command--established a new Marine Corps cultural initiative. The goal was simple: teach Marines to interact successfully with the local population in areas of conflict. The implications, however, were anything but simple: transform an elite military culture founded on the principles of "locate, close with, and destroy the enemy" into a "culturally savvy" Marine Corps. Culture in Conflict: Irregular Warfare, Culture Policy, and the Marine Corps examines the conflicted trajectory of the Marine Corps' efforts to institute a radical culture policy into a military organization that is structured and trained to fight conventional wars. More importantly, however, it is a compelling book about America's shifting military identity in a new world of unconventional warfare.

Today's society is becoming increasingly more likely to resist the lawful actions of law enforcement officers. It is critical for officers to have the necessary defensive tactics (DT) skills to successfully overcome resistance in an efficient, safe, and legal manner. The answer to achieving these results is NOT in teaching thousands of possible responses to an infinite number of potential attacks. The answer is to first use a Risk Management approach and identify the most common and dangerous attacks on officers. Next, a successful DT program must stress core concepts, proper body mechanics, natural instinctive movement, and proven principles of survival. Advanced Concepts in Defensive Tactics: A Survival Guide for Law Enforcement presents the instruction of Master Police Instructor Chuck Joyner. Developed during his tenure as a FBI use of force instructor, and expanded by his lifelong dedication to the martial arts, Joyner's Survival Sciences DT program relies on adhering to advanced concepts rather than memorizing countless techniques. Based on extensive research and actual street experience, this manual: Focuses on defensive tactics that are easily taught, understood, and applied by officers regardless of their size, strength, or athletic ability Covers hand-to-hand tactics, groundwork, weapon retention/weapon disarming, handcuffing, and the survival mindset Explains the necessary integration of hands-on DT techniques with common law enforcement secondary weapons (e.g., baton, pepper spray, TASER) Introduces a new use of force model (Dynamic Resistance-Response Model) which correctly depicts the dynamic encounter between an officer and a resistor by first focusing on the level of resistance by the subject Offers practical solutions reducing officer, department, and municipality liability Provides password access to the author's supplemental training videos online Chuck Joyner, a recognized expert in the use of force, lectures throughout the United States and internationally on myriad law enforcement topics. Mr. Joyner holds several FBI instructor certifications in force-related training, has earned black belts in four martial arts, and was awarded master rank in two styles. He was inducted into the Martial Arts Hall of Fame as instructor of the year in 2006. Mr. Joyner was employed by the CIA from 1983 to 1987, and has worked as a Special Agent with the FBI since 1987. Chuck was interviewed on February 29, 2012 on American Heroes Radio.

Although the technologies of war will always change, the insights of great leaders are timeless. And at no time are those lessons more important than in the heat of combat with lives on the line. The key is in preparation before a conflict. Battle Leadership helps you be prepared by teaching such essential skills as: How to handle different personalities under extreme stress. How to prepare your troops psychologically for combat. Insight into proven battlefield tactics (even if some of those tactics are only still relevant for their historical insights). How to instill confidence in those following you. While military tactics change, the wisdom of true leadership invariably holds. These lessons can even be applied to running a business, non-profit or government department, but they are crucial to every military commander or aspiring officer. Find out why when lives are on the line, generations have turned to and continue to learn from Battle Leadership.
