"Karan was a handsome young professional closed-circuit racer and three times National Champion, whose only love and mission was biking. A loner he was, with no friends by his side □ in sharp contrast to his social butterfly-like brother, Sandheep. Their sisters, Karuna and Sandhana, lived a life of their own. All four never mingled. Sandheep was the first to realise this flaw in their family and started to fix their broken relationship. However, they were faced with a sudden challenge, which was as a big blow. Did they overcome it? Did they find their real mission?"

This publication of School Environment in Africa and Asia Pacific is a continuation of our maiden and second publications, School Environment in Nigeria and the Philippines, published in February 2015, and School Environment in Nigeria, Ghana, and the Philippines, published in March 2017. The philosophy being that since there is a shift from globalization to internationalization and to cross-border education, there is the urgent need to revisit some topical issues in our school environment toward the realization of an internationalized, qualitative, and cross-border teaching and learning, using information and communication technology. It is therefore, based on this, that the Dakar framework for action (UNESCO, 2000)

Engineering Reference Manual provides a concentrated review of the exam topics. Thousands of important equations and methods are shown and explained throughout the Reference Manual, plus hundreds of examples with detailed solutions demonstrate how to use these equations to correctly solve problems on the mechanical PE exam. Dozens of key charts, tables, and graphs, including updated steam tables and two new charts of LMTD heat exchanger correction factors, make it possible to work most exam problems using the Reference Manual alone. A complete, easy-to-use index saves you valuable time during the exam as it helps you quickly locate important information needed to solve problems.

Truth is ever to be found in simplicity and not in multiplicity and confusion of things. I have just three things to teach or say: to the contemporary Humans that simplicity, Patience and compassion are the three building blocks of humanity. Simplicity and humanity are the ultimate sophistications of human civilization. They are the essence of happiness since great acts are made up of small deeds. All I have is a sense of duty toward all people and attachment to those with whom I have become intimate. Thus the next evolutionary step for me that mankind is to be more from man to kind. Earth provides enough to satisfy every man's need not everyman's greed. Hence I have taken up writing books to mould other beings to be humans not as savage since we Hominids were savage in early stage and now it is high time to turn out

ourselves into humans. Simplicity, which is the essence of happiness, is great act of humans for doing small deeds. Right from retirement as an Audit Officer from the Office of the Principal Accountant General Audit Andhra Pradesh Hyderabad, on 01-07-2003, I studied LL.B, at the evening age of 60 to 69 years while writing certain controversial books like (i) Human Life-A Philosophical Audit, (ii) We Think Therefore We Are, (iii) My Mind is My Mosque (iv) Tears of Terrorism (v) After all Whose Life is It any Way? (a book on Euthanasia) (vi) Know your India-Open a new Page for writing Nationalism (for India's Nationalism) (vii) Paradise Lost (a real life story of a Jihadists killing his own mother in Syria for the sake of Blessing of Paradise by the Allah) (viii) Spicy Trade (How India was subjected to Invasion by Arabs, Europeans and finally tampered One India into Three viz. Pakistan, India and Bangladesh, (ix) Father Turns Monster (real story relating to a father to save his child by killing innocent peoples and plucked their organs like Lungs and Heart and used for Transplantation and replacement of his sons Lungs and Heart) (x) Tridevi Trident (story relating to three sisters killing their father who became Psycho in raping the children including themselves and this is also a real story). I normally portray in a books only facts not fiction, poetry and no fairy tails. My aim is let the decide what is fact and what fiction and develop his personality accordingly since what ever that feels, perceives, desires expressions and emotions are all the offshoots of the Brain. The meaning of life is to take birth, to grow, to feed, to develop energy, procreate children and finally to die and merge into the womb of Earth as a piece of nuclei. That is it! Hence I did not show craze for the monetary returns but only to show the people how the realm of our Society is inflamed with monetary gains. This my story in short.
